Some monitors have recesses and may require spacers or a 75mm VESA plate.

Ensure all screws are tightened and occasionally adjust if needed.

Do not attach the monitor before assembling arm.

Do not dismantle or remodel the arms.

Supported weight must not exceed 9kg (19.8lb) per arm.

Do not use this product for any purpose other than that for which it was designed.

Support must be fixed to the wall, desk or other location to take the weight of the arm/s and monitors.

The screws supplied for the installation of the arm are supplied in good faith and with the intention that they will be used with the correct equipment to which they are supplied.

Ensure desk / work surface / wall / partition is suitable to take the weight of the arm/s and monitors.

The screws included with this kit are intended for use with the correct monitor(s) and installation instructions to ensure correct fixing.

Ensure that all screws are tightened and occasionally adjusted if needed.

Complete the serial number and address fields on the enclosed warranty card and return to your nearest distributor to register your product.

WARNING

Sicherstellen, dass alle Schrauben beigefügtes sind und, falls erforderlich, gelegentlich nachmachen. Mindestens einem Schraub-Mutter-Typ abziehen. KEINE LIQUESTE!

INSTRUCTION and INSPECTION

Entfernen Sie alle Schrauben, bevor die Montage beginnt. Betrachten Sie die Anweisungen sorgfältig, bevor Sie mit der Montage beginnen. CBS hat keine Schäden, die durch falsche Montage entstehen könnten, dass man keinen richtigen Ausrüstung benutzt oder dass man es nicht überprüft hat. Lassen Sie, bitte, sorgfältig alle Anweisungen um die kontinuierliche Durchführung der Montage zu vermeiden.

INSTRUCTION and INSPECTION

S’assurer que toutes les vis sont bien serrées et les resserrer au besoin. Nettoyer à l’aide d’un chiffon humide. PAS DE solvants.

MANTENIMIENTO E INSPECCION

Asegurarse de que todos los tornillos están apretados y ajustarse de nuevo si es necesario. Limpie con un paño húmedo. NO solventes.

ENTRETIEN et INSPECTION

Assurer que toutes les vis sont bien serrées et les resserrer au besoin. Nettoyer à l’aide d’un chiffon humide. PAS DE solvants.

MAINTENANCE and INSPECTION

Asegurarse de que todos los tornillos están apretados y ajustarse de nuevo si es necesario. Limpie con un paño húmedo. NO solventes.

WARNING

Sicherstellen, dass der Schraub-Mutter und die Schrauben vollig abgezogen werden.}

PATENT and REGISTRATION

Flo is protected by international patents and design registration.

www.colebrookboosonsaunders.com
**Fit desk fixing to worksurface**

1. Follow separate worksurface fixing installation instructions

**Fit monitor arm to clamp**

2. IMPORTANT
   - Ensure that arm is pushed fully down onto clamp

*Flo Split Clamp shown for illustration purposes

**Attach monitor mount plate to monitor**

3. IMPORTANT
   - It is the responsibility of the installer to ensure all mounting screws are properly engaged with a minimum of 4 x 360° turns into the display. Under or over insertion may cause damage to the equipment or injury to personnel.

**Mount monitor to arm**

4. Ensure that portrait / landscape action is returned to vertical position

**To remove monitor**

To remove monitor, raise arm to uppermost position before removing monitor otherwise it may spring up when unloaded.

**Adjust arm to suit weight of monitor**

5. Adjust arm to suit weight of monitor

   - Lighter monitor
   - Heavier monitor

   90° approx
   90° approx

   Adjustment will be easier and more precise if arm is positioned as shown whilst adjusting.

   **USEFUL TIP**
   - When installing similar monitors on a large quantity of arms you can save time by reading off the indicator setting of the first installed arm. This will give you a guide to the setting for the other arms. You can quickly ‘dial in’ to the same setting, then if necessary, fine tune the adjustment to balance the monitor.

**Arm setting indicator**

6. **USEFUL TIP**
   - When installing similar monitors on a large quantity of arms you can save time by reading off the indicator setting of the first installed arm. This will give you a guide to the setting for the other arms. You can quickly ‘dial in’ to the same setting, then if necessary, fine tune the adjustment to balance the monitor.

**Install monitor cables into cable management features**

7. IMPORTANT
   - Ensure you leave enough free cable to avoid stretching or snagging at all positions of arm movement and monitor tilt

**Monitor tilt action**

8. IMPORTANT
   - Ensure you have allowed enough free cable for screen rotation

   - Tighten screws evenly each side

   - Do not overtighten

   - Do not exceed maximum recommended load

   - It is the responsibility of the installer to ensure all mounting screws are properly engaged with a minimum of 4 x 360° turns into the display. Under or over insertion may cause damage to the equipment or injury to personnel.

   - SCREWS OVER-INSERTED
   - SCREWS UNDER-INSERTED

   4 x 40

   **USEFUL TIP**
   - Using your Flo arm
   - Once it has been correctly set up, your Flo arm permits you to easily position your monitor wherever you want it with fingertip control.

   - Most monitors will automatically balance in the Flo tilt head. If your monitor ‘droops’ you can add a little more friction using the head friction screws.

   The monitor can easily be swivelled from landscape to portrait orientation.
Install monitor cables into cable management features

Once it has been correctly set up, your Flo arm permits you to easily position your monitor wherever you want it with fingertip control

IMPORTANT
Avoid stretching or snagging at all positions of arm movement and monitor tilt.

WARNING
- Do not overtighten.

Tighten screws evenly each side to avoid stretching or snagging at all positions.

NOTE
- Do not use products that are not suitable for the arm provided.

10 Monitor tilt action

Most monitors will automatically balance in the Flo tilt head. If your monitor ‘drootes’, you can add a little more friction using the head friction screws.

Ensure you have allowed enough free cable for screen rotation.

WARNING
- Do not overtighten.

11 Using your Flo arm

Ensure all screws are tightened and occasionally adjust if needed.

Do not use this product for any purpose other than that for which it was designed.

WARNING
- Do not attach the monitor before assembling arm.
- Screws for screen are NOT provided, please contact your monitor provider.
- Screws for wall mounting ARE NOT provided.

MAINTENANCE and INSPECTION

- Do not use products that are not suitable for the arm provided.
- Do not use products that are not suitable for the arm provided.
- Do not use products that are not suitable for the arm provided.

List of components

- Allen Key
- Upper Arm Assembly
- VESA Assembly
- Wall Plate

DYN-013-004-INST-A OCT2011
**Fix the arm to the slatwall / toolbar**

**1. Fix the arm to the slatwall / toolbar**

*USEFUL TIP*
Use Allen Key supplied to open jaws slightly more than the gap in the slatwall / toolbar.

*IMPORTANT*
Support the weight of the arm whilst tightening screw and ensure bracket is flush against extrusion before tightening.

**Locate top jaw into the slatwall / toolbar**

**2. Locate top jaw into the slatwall / toolbar**

*USEFUL TIP*
Hold arm at an angle to locate top jaw into the slatwall / toolbar.

**Tighten fixing screw to secure arm**

**3. Tighten fixing screw to secure arm**

*IMPORTANT*
Do not overtighten. Recommended 5 N/m.

**Check jaws are fully engaged against slatwall / toolbar**

**4. Check jaws are fully engaged against slatwall / toolbar**

*IMPORTANT*
Pay particular attention to slatwalls / toolbars with rounded surfaces.

**Attach monitor mount plate to monitor**

**5. Attach monitor mount plate to monitor**

Use screws provided with monitor.

**Mount monitor to arm**

**6. Mount monitor to arm**

Ensure that portrait / landscape action is returned to vertical position.

**Useful Tip**

Hold arm at an angle to locate top jaw into the slatwall / toolbar.

**To remove monitor**

**7. To remove monitor**

IMPORTANT: Raise arm to uppermost position before removing monitor otherwise it may spring up when unloaded.

**Adjust arm to suit weight of the monitor**

**8. Adjust arm to suit weight of the monitor**

Turn adjuster screw until monitor 'floats' in all height positions.

USEFUL TIP
Adjustment will be easier and more precise if arm is positioned as shown whilst adjusting.

**Arm setting indicator**

**9. Arm setting indicator**

USEFUL TIP
When installing similar monitors on a large quantity of arms, you can save time by reading off the indicator setting of the first installed arm. This will give you a guide to the setting for the other arms. You can quickly 'dial in' to the same setting then if necessary, fine-tune the adjustment to balance the monitor.

**USEFUL TIP**

Hold arm at an angle to locate top jaw into the slatwall / toolbar.

**USEFUL TIP**

Do not exceed maximum load.

**USEFUL TIP**

*D will vary depending on design of slatwall / toolbar.
Do not use this product for any purpose other than that for which it was designed

Ensure desk/work surface is suitable to take the weight of the arm/s and monitors

Supported weight must not exceed the maximum load per arm

Take care when installing as fingers could become trapped

WARNING

MAINTENANCE and INSPECTION

DISCLAIMERS

Flo Split Desk Clamp

1. Fit M6 screws into clamp plate (for desks with screens follow step 4 first)

2. Fit clamp plate to bracket using hole position to suit required desk thickness

3. Fit M10 screw to clamp plate with clamp pad in position

4. Fit clamp to worksurface. Ensure back of the clamp is flush against edge of the worksurface

5. Tighten M10 clamp screw

Reconfiguring the 180° stop function

The Flo clamp base is factory fitted with a 180° stop feature. You can permit 360° rotation by simply pulling the cover and base from the clamp and repositioning the stop feature as shown.

Fully tighten the screw

The use of power tools, lever bars or excessive force during the installation, or re-configuration of the product will invalidate your guarantee

Failure to observe the recommendations in the use, and configuration of these products may affect your guarantee

www.colebrookbossonsaunders.com
Flo Top Mount Clamp

1. Place clamp plate in position on work surface

2. Attach spacer pad to C-bracket in required orientation

3. Pass C-bracket and spacer around work surface. Ensure inside of bracket is flush against the work surface. Locate screws into clamp plate recess.

4. Locate screw point into clamp plate recess

5. Fit the bush and clamp cover

Configuring the 180° stop function
The Flo top mount clamp features a 180° stop feature. Arm rotation can be limited by simply placing the stop feature in the positions shown.

- Do not use this product for any purpose other than that for which it was designed
- Ensure desk/work surface is suitable to take the weight of the arm/s and monitors
- Supported weight must not exceed the maximum load per arm
- Take care when installing as fingers could become trapped

MAINTENANCE and INSPECTION
- Ensure all screws are tightened and occasionally adjust if needed
- Ensure post is pushed fully down onto clamp before installing the arm and monitor
- Clean with a damp cloth, NO solvents

DISCLAIMERS
