## GEAR FOR ALPINE LIVING

For us, finding inspiration is as easy as walking out the front door and gazing up at the Swiss Alps.

Our garments exude the simplicity and intricate detail of the mountains that surround us. The combination of high performance fabrics and an understated aesthetic means that FW apparel is highly versatile—technology that is able to withstand formidable weather in the high Alpine delivered with modern cuts, minimalist branding and rich colour palettes.

FW's progressive obsession to synergize style and technology reflects years of years of exhaustive research, development and testing in the heart of the Alps.

## MOVE FORWARD

MOVE FORWARD. This action defines our brand in two ways: First, our progressive garments are suited to explore our Alpine home — keeping you warm, dry and comfortable as you move step by step toward a new objective.

Second, our unwavering commitment to innovation, sustainability improvements and design solutions — always with the synergy of functional detailing with performance fabrics.

Our gear is thoughtfully crafted for those who share our passion for nature. Join the FW movement and experience what our collection has to offer.

## FORWARD THINKING

We incorporate less impactful materials that have proven to be both durable and functional.

Because a garment's total environmental impact is related to how long it lasts, FW offers a robust repair service to further extend the life of our products. As part of our forward-thinking mission, we always aim to repair rather than replace, as we seek to keep our products out of landfill.

FW is a proud member of 1% for the Planet. One percent of our sales directly support non-profit organizations that serve the environment we love. Through research, cash donations and volunteering, we collaborate with 1% for the Planet to move FORWARD and instigate positive change.

## SUSTAINABILITY

This is Sara Asmoarp. In her role as FW's Quality & Sustainability Manager, Sara is deeply involved with both the product development team and our production chain.

At FW, we understand the product life cycle deeply and meld the highest standards of quality and durability to FW's Sustainability goals. We collaborate with our partners, 1% for the Planet, AIR coop, and Protect Our Winters to bring forward thinking action and activism to the forefront of FW sales and communications. Our stance on Sustainability is an open-ended conversation, we continue to research, and incorporate circular business models and less impactful materials into our garments - all without compromising the quality and functionality of FW Gear.

All-new for the 20/21 season, the MANIFEST Tour garments combine high-end backcountry functionality with FW's signature, understated aesthetic.

This collection speaks to the pragmatic adventurer whose thirst for new experiences requires unparalleled performance.

## WAY OUT BACK

The pinnacle of this new range is the MANIFEST Tour 3-Layer Jacket and Bib, each boasting premium waterproofing and breathability, and stretch characteristics for uninhibited movement.

The Bib's soft-to-touch Cordura panels make uphill climbing comfortable and free-moving. When paired with our efficient puff layers—including the MANIFEST Hybrid Tour Hoodie and Pant—the result is a kit that withstands even the harshest winter environments, keeping you warm, dry and comfortable without constant stops to change layering through fluctuating temperatures in the mountains.

We are committed to crafting outdoor gear that is as beautiful as it is practical.

The ROOT family epitomizes our dedication to versatility; the technical aspects protect FW fans through extreme conditions, all delivered in rich, tonal colour palettes and a modern aesthetic.

## PROGRESSIVE OUTDOOR

For the 20/21 season, the ROOT family's debut high performance gear includes the addition of the all-new ROOT 3L Jackets and ROOT Down Jackets, featured in both Men's and Women's styles.

Built from a 3-Layer membrane, the ROOT 3L Jacket is ultra waterproof and breathable while maintaining the ROOT's contemporary take on classic style. The ROOT Down Jacket offers a sustainable alternative, utilizing 100% recycled down.

## COLOR STORY

We explore shades and tones of a rich color palette in 20/21. Delivering endless cross-merchandising possibilities, this collection is artfully arranged with ease in store and within digital retail.

**WPS**

Waterproof Shells are designed to be worn as an outer-most layer—able to withstand the harshest environments.

**LTS**

Light Shells are designed to be worn as an outer layer, generally in milder conditions.

**PFL**

Puff Layers are designed to be worn underneath a Waterproof Shell as a mid-layer, providing maximum warmth.

**MDL**

Mid Layers are designed to be worn underneath a Waterproof Shell, for comfort and warmth.

**LSW**

Leisure Wear garments provide the utmost comfort and are designed to be worn under Mid Layers and outerwear, both on and off the mountain.

**BSW**

Base Wear garments are designed to be worn as a first layer, directly against your skin, for temperature regulation and comfort.

**CLASSIFICATION SYSTEM**

Alpine environments are constantly in flux, and gearing up for a day in the mountains can be complicated. We are here to simplify. FW's apparel has been split into comprehensive product classifications from Waterproof Shells to Base Wear, so that you may thrive in the sun, snow and the rain.

**WPS  
DERMIZAX™ EV**

The DERMIZAX™ ev is incredibly waterproof and breathable. This 3-layer technology is featured in the MANIFEST 3l jacket and pant. The fabric is soft to touch, „quiet“ and delivers high-performance protection in all conditions.

W/P: 20,000MM; MVP: 16,000G;  
DWR; FACE: 100% Polyester; MEMBRANE:  
100% PU; BACKING: 100% NYLON; OEKO-TEX  
APPROVED

**WPS  
2L OTTOMAN  
RECYCLED YARN**

This waterproof 2-layer fabric has a cotton-like appearance, but in fact, is highly technical. The nylon thread is incredibly soft to the touch and also ultra durable, making it comfortable and reliable, lap after lap. This fabric is featured in the CATALYST 2l Jacket + Pant WPS.

W/P: 15,000MM; MVP: 10,000G; PFC FREE DWR;  
100% POST CONSUMER WASTE RECYCLED  
NYLON YARN; MEMBRANE: 100% HYDROPHILIC  
CLEAR MEMBRANE

**WPS  
2L CHAMBRAY**

This urban inspired fabric looks like blue denim, but is in fact waterproof and breathable. Featured in the CATALYST 2l Pant WPS and CATALYST Insulated Shirt MDL, for riders who require high performance in stealth mode.

W/P: 10,000MM; MVP: 10,000G;  
DWR; FACE: 100% COTTON TWILL; MEMBRANE:  
100% HYDROPHILIC MILKY MEMBRANE

**WPS  
3L 4 WAY  
STRETCH NYLON**

This 3-layer fabric is ultra waterproof and breathable, and it stretches to move with your body. It's the perfect solution for our expanding backcountry offering: the WPS - 3l 4 way stretch nylon can be found in the MANIFEST Tour 3l Jkt + Bib.

W/P: 20,000; MVP: 20,000G;  
DWR ; FACE: 85% NYLON, 15% SPANDEX;  
MEMBRANE: 100% HYDROPHILIC MILKY MEMBRANE;  
BACKING: 20D NYLON TRICOT

**WPS  
2L-OXFORD  
RECYCLED YARN**

This waterproof 2-layer shell fabric has an authentic, natural outdoor look with no compromise on technicality. This recycled yarn is featured in the ROOT Anorak LTS.

W/P 10000MM; MVP 10000G; PFC FREE DWR;  
100% NYLON OXFORD FULL DULL, RECYCLE YARN;  
MEMBRANE: 100% HYDROPHILIC MILKY MEMBRANE

**WPS  
LIGHT WOVEN  
NYLON**

Waterproof and breathable, this light woven nylon is found in the CATALYST insulated shirt (slate black and golden earth) as well as the reinforcements in the ROOT Classic Fleece and Down jackets. Soft to the touch and weather-proof, it's ultimately versatile for life up high.

W/P: 10,000MM; MVP: 10,000G;  
DWR; FACE: 100% NYLON PLAIN FULL; 100%  
HYDROPHILIC MILKY MEMBRANE

**WPS  
3L NYLON DULL**

This waterproof 3-layer fabric brings breathability and waterproofing to the ROOT 3l jacket + w ROOT 3l jacket — both debuting in the ROOT capsule for season 20/21. These garments bring a renewed technicality to progressive outdoor clothing.

W/P: 10,000G; MVP: 10,000G;  
FACE: 100% NYLON PLAIN FULL DULL; PFC FREE DWR;  
MEMBRANE: 100% HYDROPHILIC MILKY MEMBRANE;  
BACKING: 20D NYLON TRICOT

**WPS  
2L OXFORD WAX  
+ PRINT**

A waterproof 2-layer printed fabric with a wax coating finish - for a uniquely comfortable feel. This fabric is featured in the MANIFEST 2l Jacket and Bib.

W/P: 10,000MM; MVP: 5000G;  
DWR; FACE: 100% Polyester (OXFOFRD FULL DULL);  
MEMBRANE: 100% HYDROPHILIC CLEAR COATING; OEKO-  
TEX APPROVED

**WPS  
LIGHT WOVEN  
SHELL**

This light face fabric brings comfort and weather-proofing to the ROOT Down Jacket + w ROOT Down Jacket PFL's. Its hydrophobic qualities repel moisture and prevent down migration, bolstering the performance of these sustainably sourced puff layers.

W/P: 600MM, MVP: 3000G; PFC FREE;  
FACE: 100% POLYESTER; COATING: 100% POLYURETHANE;  
Oeko-Tex Approved

**FABRICS**

To create functional gear for Alpine living, we begin with considered and researched fabric selection. We incorporate eco-friendly materials where they prove to be both durable and functional.

LTS  
AIRTASTIC™  
30D RIPSTOP

A weather-proof fabric built with a dwr (durable water repellent) finish. The windproof ripstop fabric offers effective protection from the elements. The ripstop structure, combined with the nylon thread provides long-lasting breathability in an ultra-light package.

100% NYLON;  
100% POLYURETHANE COATING;  
DWR; OEKO-TEX APPROVED

LTS  
AIRTASTIC™ DWR  
20D RIPSTOP

This lightweight and durable ripstop shell provides exceptional breathability that stands the test of time. Utilized as the face fabric for PFL's such as the MANIFEST Crew Neck + W MANIFEST Crew Neck, as well as the MANIFEST Hybrid Tour Hoodie + Pant.

100% NYLON;  
WR; OEKO-TEX APPROVED

PFL  
RE-DOWN 80/20

This sustainably sourced down is the eco-friendly choice for mid-winter puff layers. The 100% recycled insulation is featured in the ROOT Down Jacket + J ROOT Down Jacket.

80% RECYCLED DOWN;  
20% RECYCLED FEATHERS  
Fill Power 600

PFL  
PRIMALOFT® BLACK  
INSULATION ECO 60G

Bluesign® approved primaloft® black eco insulation is comprised of 80% post consumer recycled materials. The advanced fiber technology creates a high-performance, eco-friendly insulation. Provides warmth without bulk in garments such as the CATALYST 2I Jacket WPS.

80% POST CONSUMER WASTE FIBERS; 20% POLYESTER;  
OEKO-TEX AND BLUESIGN APPROVED

LTS  
CORDURA STRETCH  
DWR

The cordura sidepanels of the MANIFEST tour 3I bib are incredibly soft to touch, providing unparalleled comfort on long days spent touring in the backcountry. This fabric is also found in the MANIFEST Hybrid Tour Hoodie + Pant PFL's.

64% CORDURA, 26% NYLON, 10% SPANDEX;  
PFC FREE DWR; BLUESIGN APPROVED

LTS  
DWR 35D WAX

This weather-resistant fabric is coated with wax for lightweight protection — complementing the street-style aesthetic of the ROOT Coach Jacket.

100% POLYESTER;  
WAX COATING; WR; OEKO-TEX APPROVED

PFL  
PRIMALOFT® BLACK  
INSULATION ECO 40G

Bluesign® approved primaloft® black eco insulation is comprised of 80% post consumer recycled materials. The advanced fiber technology creates a high-performance, eco-friendly insulation. Provides warmth without bulk in garments such as the CATALYST 2I Pant WPS.

80% POST CONSUMER WASTE FIBERS; 20% POLYESTER;  
OEKO-TEX AND BLUESIGN APPROVED

PFL  
POLARTEC®  
ALPHA 100G

Alpha® insulation is engineered for consistent warmth, while allowing greater breathability on uphill hikes. This durable and warm mid-layer allows for temperature regulation without shedding layers. As featured in the mMANIFEST Hybrid Tour Hoodie PFL.

100% RECYCLED POLYESTER;  
OEKO-TEX AND BLUESIGN APPROVED

LTS  
DOWNPROOF LINING

This lightweight lining — made from 100% recycled polyester — is the perfect companion to down insulation.

100% POLYESTER PLAIN (RECYCLE YARN);  
DOWNPROOF 90/10

PFL  
POLARTEC®  
ALPHA 80G

This slightly lighter weight alpha® insulation is engineered for consistent warmth. The amazing breathability of this fabric allows for temperature regulation without shedding layers. As featured in the MANIFEST Hybrid Tour Pant PFL.

100% RECYCLED POLYESTER;  
OEKO-TEX AND BLUESIGN APPROVED

PFL  
DWR 35D  
HIGH FREQUENCY

This weather-resistant fabric uses no needles in its quilting, making it less susceptible to moisture penetration. The super-soft insulation is quilted with a high frequency technique and finished with a dwr coating that keeps you dry, warm and comfortable.

100% POLYESTER;  
INSULATION 100% POLYESTER 120GR/M2;  
LINING 100% POLYESTER; DWR

**MDL**  
**POLARTEC®**  
**POWER STRETCH® PRO™**

This fabric masterfully wicks moisture and provides the breathability typical of top-line baselayers — with the fortified ability to handle the elements. The next-to-skin surface keeps you warm and dry through touch points that diffuse and evaporate water vapor. As seen in garments including the MANIFEST Powerstretch Pro Hoodie - MDL's.

31% NYLON, 52% POLYESTER, 17% LYCRA; OEKO-TEX + BLUESIGN APPROVED

**LSW**  
**POLYCOTTON 300G**

The polyester fibers within this polycotton jersey provide warmth and quick-drying properties. As featured in the CATALYST Tech Pullover Hoodie LSW, this next-to-skin layer is brushed for even more comfort.

70% ORGANIC COTTON, 30% POLYESTER

**LSW**  
**TWILL ORGANIC COTTON**

Made from 100% organic cotton, this fabric is featured in the ROOT Alpine Living Shirt - LSW, a trustworthy companion for temperate outdoor activities.

100% ORGANIC COTTON

**BSW**  
**RAPT™ MERINO WOOL / BRUSHED**

This midweight merino fabric provides next-level comfort. A natural thermo-regulator, merino wool provides tremendous warmth, breathability, moisture wicking and anti-odor properties. The nylon core thread makes the fabric incredibly strong, perfect for outdoor activities. As featured in the RAW midweight garments.

90% MERINO, 8% NYLON, 2% SPANDEX; OEKO-TEX APPROVED

**MDL**  
**POLARTEC® SHEARLING THERMAL PRO SERIES™**

With an authentic, natural outdoor look, this fabric provides a warm and cozy layer for outdoor adventures in the depths of winter. Featured in garments such as the ROOT Pillow Fleece MDL.

100% POLYESTER; OEKO-TEX + BLUESIGN APPROVED

**LSW**  
**CANVAS ORGANIC COTTON DWR**

This 100% organic fabric has a super-soft hand-feel, with dwr treatment to boot. Featured in the ROOT Alpine Living Pant LSW, this technology yields a robust and versatile pant for alpine living.

100% ORGANIC COTTON DWR

**LSW**  
**INTERLOCK RECYCLED**

This is a brushed technical knit made from recycled polyester and organic cotton — featured in the W SOURCE Zip hoodie LSW, a sustainable mid-layer for urban and outdoor activities.

RECYCLED POLYESTER, ORGANIC COTTON, ELASTANE

**BSW**  
**LIGHTWEIGHT MERINO WOOL**

This lightweight merino jersey knit is the perfect next-to-skin layer for any technical outdoor garment. A natural thermo-regulator, merino wool provides tremendous warmth, breathability, moisture wicking and anti-odor properties. The nylon core thread makes the fabric incredibly strong, perfect for outdoor activities. As featured in the RAW lightweight garments and the base of the MANIFEST Hybrid Tour Pant PFL.

100% MERINO

**MDL**  
**POLARTEC®**  
**200 SERIES DOUBLE VELOUR**

Providing softness and warmth to garments such as the ROOT classic fleece, this premium Polartec® product ensures the utmost comfort and dependable durability.

100% POLYESTER MICRO YARN; OEKO-TEX + BLUESIGN APPROVED

**LSW**  
**DIAGONAL ORGANIC COTTON 300G**

This ultra-soft fabric is made from 100% organic cotton, for comfortable, sustainable mid-layers such as the SOURCE Crew neck LSW.

100% ORGANIC COTTON

**LSW**  
**JERSEY ORGANIC COTTON 160G**

This jersey knit is made from 100% organic cotton and found in the SOURCE T-shirt LSW.

100% ORGANIC COTTON

**AXS**

**ACRYLIC YARN**  
As featured in the FW Hipster + Tall Beanie AXS.  
100% ACRYLIC

**ACRYLIC / WOOL**  
As featured in the FW Arch cap AXS.  
80% ACRYLIC, 20% WOOL

**POLYCOTTON**  
As featured in the FW Soft Cap AXS.  
60% COTTON, 40% POLYESTER

## MANIFEST

Our values MANIFEST in these garments: high quality materials and uncompromising design, all without sacrificing style. Intended for freeride skiing, snowboarding and other high-intensity winter sports.

## CATALYST

A reaction between two opposing elements that sparks change, energy and zeal. On one side: freestyle spirit and a streetwear fit. On the other: technical features and the absolute highest quality materials.

## ROOT

A product family inspired by our all-time favorite designs from the past. We've reinvigorated the classics with modern details and fabrics, ensuring these garments excel from peak to street.

## SOURCE

Utilising Organic Cottons and recycled materials, this generation of t-shirts, crew-necks and hoodies is designed to be comfortable, casual, sustainable and long-lasting. Fits are relaxed with a focus on being highly ergonomic for free-feeling movement.

## RAW

Protection from the elements begins with proper base wear: the first and last line of defense. We design RAW BSW garments to act as a second skin: functional in the alpine and comfortable when relaxing off the hill.

## AXS

FW accessories are designed to style and protect you come rain, snow, or shine.

# MANIFEST

Our values MANIFEST in these garments: high quality materials and uncompromising design, all without sacrificing style. Intended for freeride skiing, snowboarding and other high-intensity winter sports.

# MANIFEST

## MANIFEST 3L JKT-WPS

The 3-Layer Jacket is the ultimate mountain shell. Using only our highest-quality zips and fabric, the garment is designed to masterfully repel snow, rain and wind. In addition to being extremely protective and waterproof, the jacket is highly ergonomic, designed to move fluidly with the body to increase efficiency and comfort. Thoughtfully crafted in-line with FW's emphasis on performance and functional minimalism.

**FEATURES** 100% Seam sealed // Back pack and harness friendly // Storm hood with bonded visor // bonded chest and hand pockets // Jacket to pant connection system // Large under arm vents // Sleeve ski pass pocket // Interior pocket and goggle wipe // Inner pocket with media outlet

**CODE** FWAP20-FR3J / FWAPW21-FR3J  
**SIZES** XS — XXL  
**FABRIC** WPS-DERMIZAX™ EV 3L (20,000MM / 16,000G)

SLATE BLACK  
 PRAIRIE SAND  
 ICE BLUE

**FEATURES** 100% seam sealed // Articulated knees // Adjustable waistband // Top and side access thigh pockets // YKK Vislon Aquaguard® zips // Large leg vents // Kick patches // Boot gaiters // Jacket to pant connection system

Ultra-breathable and extremely waterproof, the 3-Layer Pant is equipped with functional, understated details such as hidden kick-patches and jacket-to-pant connection for when the going gets deep. A dual-accessible cargo pocket provides collapsable storage volume and easy access, perfect for gloves, skins, maps, and other tools for adventure.

## MANIFEST TOUR 3L JKT-WPS

This jacket boasts a higher level of functional detailing, designed with backcountry adventures in mind. For those who venture beyond the resort on excursions big and small, this 100% seam-sealed jacket is created from the highest quality, waterproof, stretch fabric, cut precisely to avoid excess weight. Superbly breathable, this garment will keep you at you best throughout the warm springtime days and also when the temperature drops — as an integral piece of your layering system.

### FEATURES

100% Seam sealed // Adjustable helmet compatible hood // High collar lined with polytricot // Back pack and harness friendly // Lycra wrist gaiters with laser-cut thumb loops // YKK Aquaguard® zips and YKK Vislon Aquaguard® zips in front center // Large side venting // Adjustable hem and cuff including pre-shaped cuff to protect hand // Large chest pocket with laser cut mesh lining for improved breathability // Extra large front body vent and mesh pocket system for moisture regulation // Waterproof sleeve pocket for phones, keys and cards

## MANIFEST TOUR 3L BIB-WPS

The MANIFEST 3L Tour Bib Pant is wonderfully efficient. Constructed from a lightweight, stretch, 3-Layer fabric — and cut for ergonomic excellence. The Bib's Cordura side panels are incredibly soft and allow for fluid movement whether trekking up or flying down. This garment is ultra breathable and waterproof, ensuring max comfort. Multi-entry thigh pockets have an expanding capacity to hold skins or wet gloves, and laser cut vents ensure that any excess water escapes said pockets.

 MDL-POLARTEC® POWER STRETCH® PRO™

# POLARTEC ALPHA

POLARTEC® ALPHA® WAS INVENTED FOR THE U.S. SPECIAL FORCES.

They required a superior insulation system for extreme temperature variations and the start-stop conditions of combat. Alpha® active insulation is engineered for consistent warmth, while allowing greater breathability during activity. This air exchange technology creates sustained comfort without shedding layers, which isn't an option during a mission.

POLARTEC® ALPHA® ACTIVE INSULATION CONTINUOUSLY RELEASES EXCESS BODY HEAT BEFORE IT BUILDS TO CAUSE SATURATION AND DISCOMFORT.

This patented, adaptive quality is made possible through Alpha's lofted fibers connected to a solid mesh core. And since Polartec® Alpha® is inherently hydrophobic, it resists all moisture and dries incredibly fast. This technology provides warmth without weight, compressibility and exceptional breathability - providing comfort for users on the move.

## MANIFEST TOUR HYBRID HOODIE-PFL

The MANIFEST Tour Hoodie is a puff layer with purpose. Intelligent warmth is provided by Polartec® Alpha insulation. This technical insulation is engineered for extreme temperature regulation - perfect for ski touring up, then ripping down. The exceptional breathability ensures sustained comfort, all without having to shed or add layers.

**FEATURES** Insulated hoodie with Polartec® Alpha 100g insulation // Mesh liner increases breathability // Polartec® Powerstretch® Pro™ underarms and side panels // Stretch cordura outerarm panels and thumb loops // Tall collar with adjustable hood // Secure interior pocket with media outlet // DRAWcord adjustable hem // Raglan sleeves with ribbed collar and cuffs // Zipped hand pockets

# PRIMALOFT INSULATION

THE PRIMALOFT® FAMILY OF INSULATIONS IS WIDELY REGARDED AS THE HIGHEST-PERFORMING ON THE MARKET, OFFERING COMFORT AND PROTECTION IN VARIABLE WEATHER CONDITIONS.

PrimaLoft® Black Insulation - 80% PCR is no different, offering the warmth, softness and lightweight comfort you expect to deliver performance you can feel. It's packed with everything you need to brave the elements. And best of all it contains 80% post consumer recycled material.

PrimaLoft® Black Insulation - 80% PCR features all the necessities for a thermally efficient insulation and adds the benefits of softness, packability, and loft. The performance experts at PrimaLoft, Inc., have combined 80%-recycled materials with advanced fiber technology to create a high performing eco-friendly insulation for immediate warmth without the bulk. This insulation delivers all the performance needed to tackle the adventures of everyday.

## MANIFEST QUILTED HOODIE—PFL

Minimal and efficiently stylish, this quilted insulator fits perfectly under a shell or as its own outer layer in drier conditions. PrimaLoft® Black Eco insulation offers warmth, softness and lightweight comfort from 80% post-consumer recycled materials. High-quality, water-repellent fabrics round it out as a durable and dependable offering for mountain and urban expeditions.

 MDL-POLARTEC® POWER STRETCH® PRO™

# POLARTEC POWER STRETCH PRO

POLARTEC® POWER STRETCH® PRO™ OFFERS IMPRESSIVE ELASTIC STRETCH FOR MOVEMENT AND COMFORT.

Advanced dual-surface knit construction gives Power Stretch® Pro™ enough tensile strength and abrasion resistance for durable shape recovery. Performance wicking abilities mean it keeps up with any activity, removing moisture from the skin's surface, and wicking to the fabric surface for quick evaporation. The 4-way stretch of POLARTEC® POWER STRETCH® PRO™ ensures ease of movement while the construction of the fabric provides temperature and moisture regulation.

## MANIFEST POWERSTRETCH PRO HOODIE—MDL

Equally comfortable and stylish as your traditional hoodie, but with extra tech to keep you warm and dry on the mountain. Made from quick-drying Polartec® Power Stretch® Pro fabric, this piece provides free-feeling movement and protection from the elements. Complementing its soft hand feel, flat seams provide even more comfort.

- LIGHT STONE

## RE-DOWN 80/20

THIS SUSTAINABLY SOURCED DOWN IS THE ECO-FRIENDLY CHOICE FOR MID WINTER PUFF LAYERS. THE 100% RECYCLED INSULATION IS FEATURED IN THE ROOT DOWN JACKET + W ROOT DOWN JACKET.

Down and feathers have been recycled since people began to use them as filling material for their bedding products. In the old times, farmers took the down out of the fabric shell when their duvet was too damaged. They washed the down, added new down to it and filled it into a new shell. The Re:Down process is based on this ancient practice but thanks to the most advanced technologies, we offer high quality 100% recycled down and feathers.

The Re:Down RAW material are traceable from the post consumer product stage to the finished, regenerated product. Re:Down comes mainly from textile waste collectors. We choose our partners for their social values and the transparency of their business. Most of them are mixed economy companies between private owners and charity organisations. Re:Down uses the most environmentally friendly methods to regenerate down and feathers - from factory electricity powered by 30% solar, to water treatment, chemical free sterilization and the water-resistant finish provided by an ecological FC free formula.

## POLARTEC THERMAL PRO

POLARTEC® THERMAL PRO®  
– PROGRESSIVE FLEECE STRUCTURE

Unique finishing techniques ensure every knit construction has the right look and feel. Technical fiber compositions maintain a soft texture and air pockets for thermoregulation and breathability. Knit with premium polyester yarns, Thermal Pro® is cozy, resilient and stylish.

## POLARTEC 200 SERIES

Polyester fibers engineered for more versatile durability. With greater resilience, lightweight warmth and fast dry times, Polartec® fleece remains the industry standard for performance. Premium polyester yarns are used for their hydrophobic properties, to repel moisture and speed dry times. The lofted structures create thermal air pockets to retain warmth, and still allow optimal breathability. That's why Polartec® synthetic fleece is still the most dependable, versatile fabric around.

## ROOT PILLOW FLEECE—MDL

Not your Dad's retro pullover. The ROOT Pillow Fleece is based on favorite designs from the past, updated for the modern day, using POLARTEC® fabric for the highest quality and comfort. # RAW

## W RAW

Protection from the elements begins with proper base wear: the first and last line of defense. We design RAW BSW garments to act as a second skin: functional in the alpine and comfortable when relaxing off the hill.

RAW

## RAW JOGGER / UNISEX

The RAW MW Jogger is made from 90% Midweight Merino Wool, for cozy warmth and coveted elastic properties. A dRAWcord at the waist, hand pockets and narrow leg bottoms allow this piece to thrive as an underlayer or as a standalone.

CODE	FWSG20-BLFB
SIZES	(UNISEX) XS — XXL
FABRIC	BSW-RAPT™ MERINO WOOL / BRUSHED
FEATURES	Elasticated waist with dRAWcord // Zippered hand pockets // Slim fitting leg bottoms

SLATE BLACK

## W RAW LW CREW LONG SLEEVE

The Women's RAW LW Long Sleeve Crew is lightweight, ergonomic and perfect for the slightly warmer days. Featuring thumb loops and an extended back for added comfort and style. Made from 100% Merino Wool.

CODE	FWAPW21-WRLC
SIZES	XS — XL
FABRIC	BSW-LIGHTWEIGHT MERINO WOOL
FEATURES	Regular women's fit // Thumb loops // Longer back

SLATE BLACK

## W RAW TIGHT 3/4

The Women's RAW 3/4 Jogger is designed to match perfectly with ski socks and boots. With flatlock seams and made from 100% Merino Wool, this piece is the perfect base layer for long days on the hill.

CODE	FWAPW21-WRTT
SIZES	XS — XL
FABRIC	BSW-LIGHTWEIGHT MERINO WOOL
FEATURES	Flat waistband // Flatlock seams // Regular women's fit

SLATE BLACK

## MERINO

MERINO WOOL IS SHORN FROM HIGH COUNTRY SHEEP THAT ARE EQUIPPED FOR SUB-ZERO TEMPERATURES AS WELL AS THE HEAT OF SUMMER.

This makes this naturally soft fibre the best thing to have next to your skin in any technical Alpine layering silhouette. Merino wool boasts unparalleled breathability, anti-odor properties, an incredible warmth to weight ratio and moisture wicking abilities to move moisture away from your body, keeping you warm, comfortable and dry.

AXS

FW accessories are designed to style and protect you come rain, snow, or shine.

AXS

## AXS ROOT GAITER-WPS

For the pragmatic adventurer who likes to keep snow and rain outside of their boots. (Yeah, it's for everyone.) The ROOT Gaiter is all-new to the FW Accessories range, with reinforced 3-Layer fabric and the technical details to remain fixed and functional.

CODE	FWAPW21-ROGT
SIZES	M — L
FABRIC	WPS-3L 4WAY STRETCH NYLON (SLATE BLACK & LT. STONE) WPS-3L NYLON DULL (DEEP FOREST)
FEATURES	3-Layer fabric with hidden reinforcement // Elasticated bottom // Webbing adjustment to fix gaiter under foot sole // Webbing adjustment adjustment at top of gaiter

SLATE BLACK    DEEP FOREST    LIGHT STONE

## AXS SUSPENDERS-AXS
