

We have been hard at work here at OPT defining our Tools strategy and roadmap for 2022. As an existing customer of ours who has purchased similar products in the past we know this will be of interest and wanted to pass on this news.

WHAT WE DO AND WILL CONTINUE TO DO

Design, prototyping and production of precision fibre preparation tools tested to 500+ cuts

25 years experience in quality and innovation with friendly and efficient customer service.

Work in collaboration with world leading manufactures of Cables and new industry entrants.

[Full range from 1mm to 16mm](#) Manufactured and assembled in Britain

Sustainable Packaging and documentation.

WHATS NEW AT OPT

From 1st December – **Lifetime Guarantee on blades (rotary)**

Return and replace promise on handles for £25.

Launching Jan 2022 New lowest cost range (static blades) starting with [3 in 1 MDU tool](#)

Adjustable longitudinal and circumferential cutter.

Rapid tool development using our 'Concept 2 Completion' service - 10 working days.

Online resources - guides and instructional 'safety' videos.

Launching a Test service - Contact us and supply a cable sample and we will confirm existing tool suitability or offer rapid tool development at an affordable cost.
