URBAN FURNITURE

Multiply functionalities without connecting to the power grid

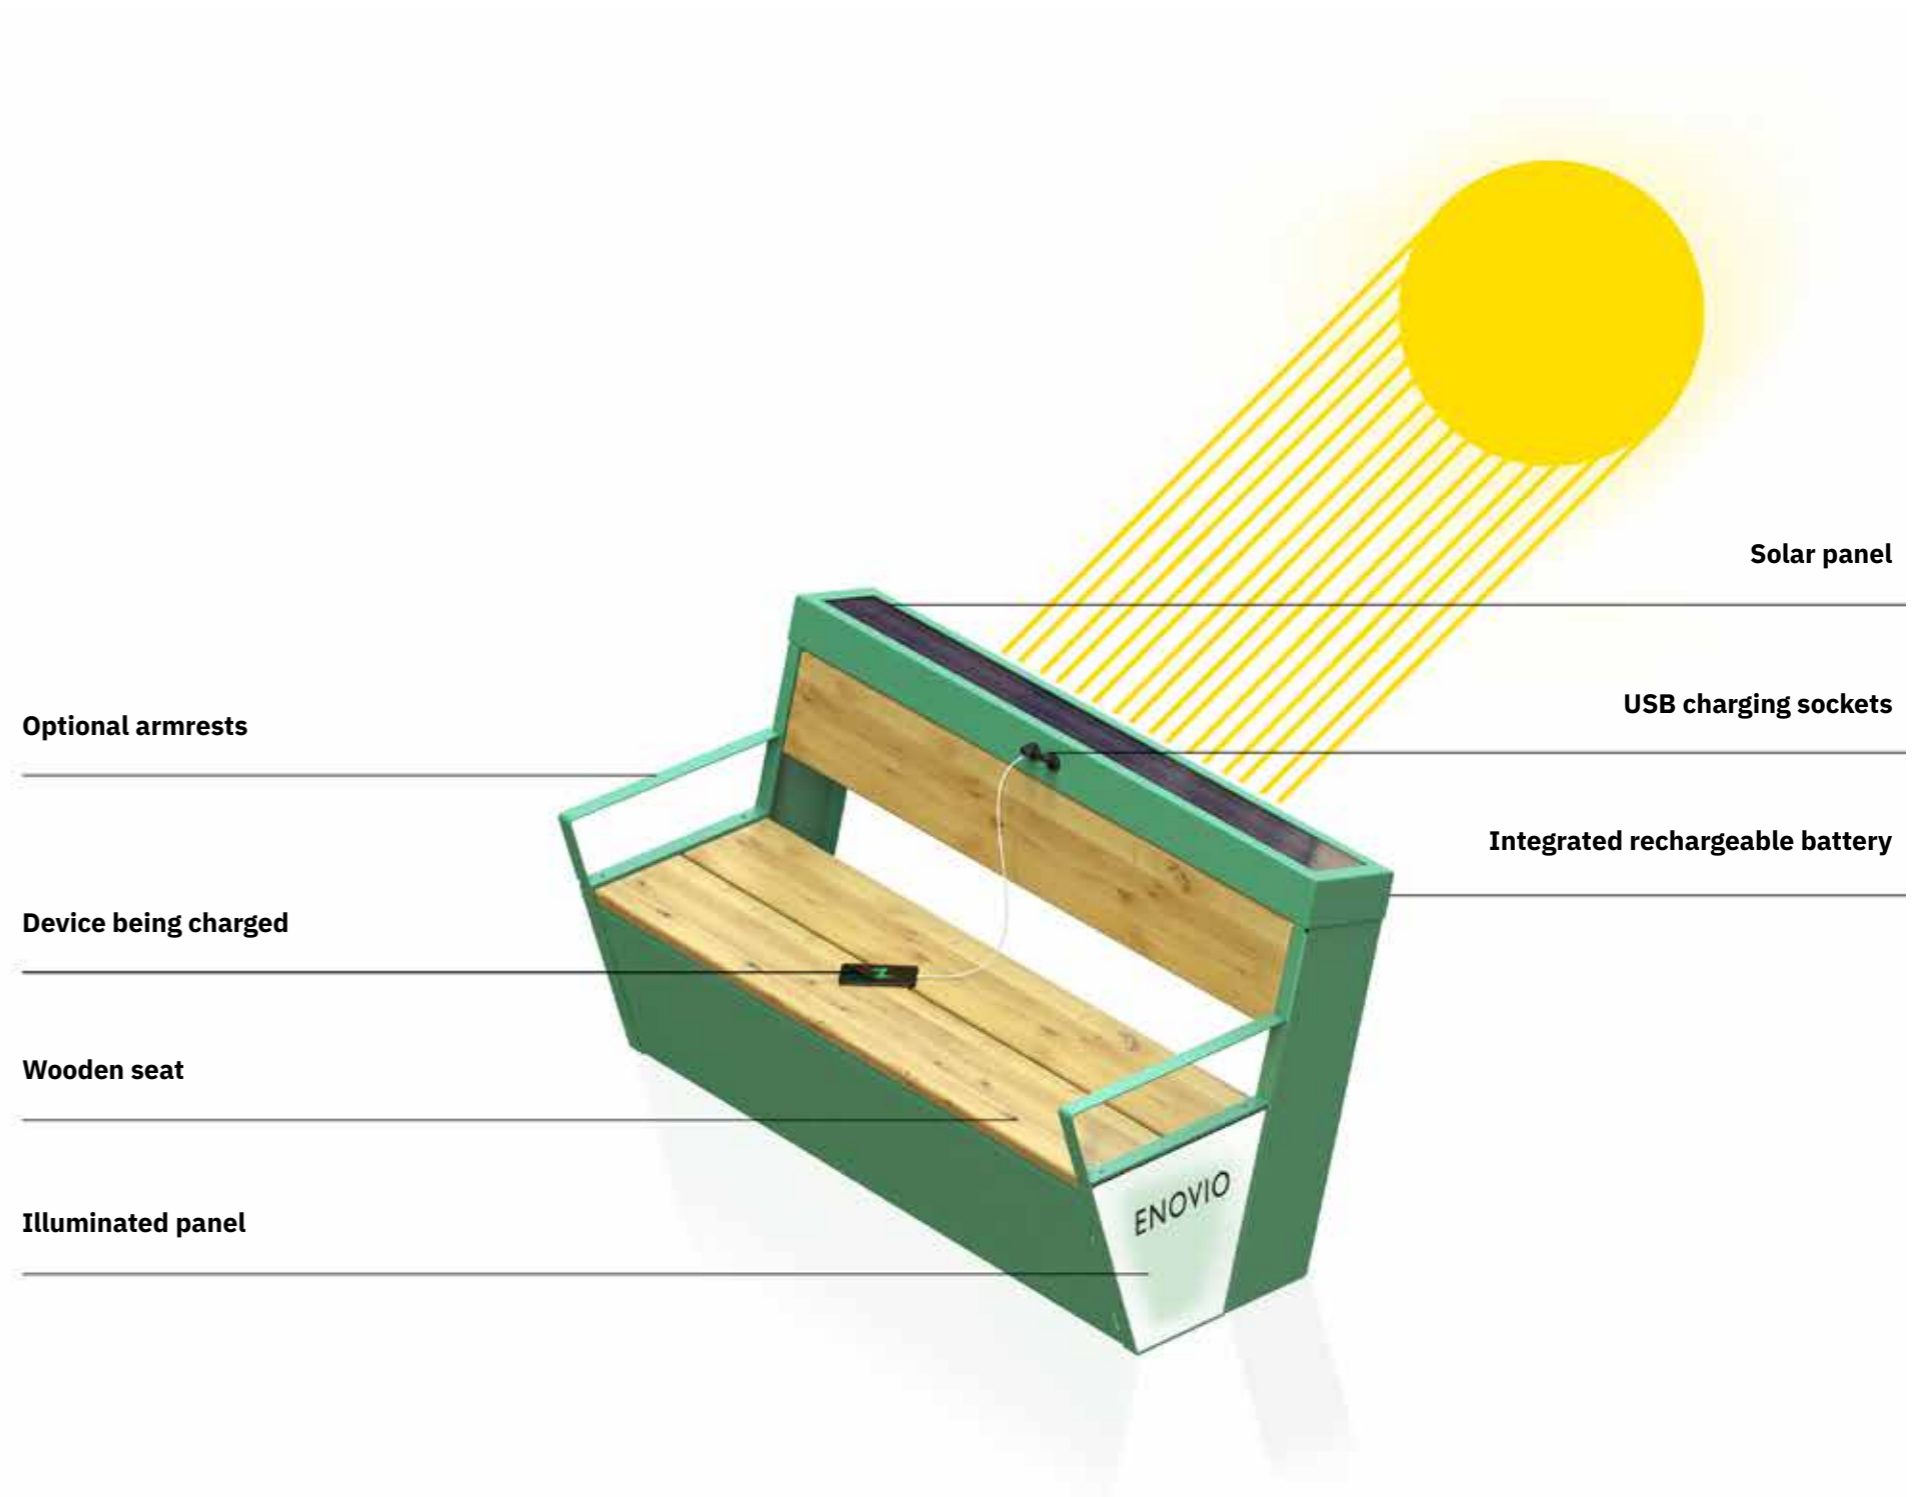

**must
have**
SELECTED BY LODZ DESIGN FESTIVAL

How the Df Studio x Enovio bench work?

Our benches are equipped with a photovoltaic panel developed and produced by us, which generates the energy necessary to power additional functions. The panel is tilted at a slight angle towards the sun which increases the generated yield.

The generated energy is stored in a built-in rechargeable battery, which is tightly insulated. Then the electricity is fed to the USB sockets and the backlit panel.

Production

Dedicated photovoltaic panels

As one of the few manufacturers, we have the competence of production own photovoltaic panels of non-standard sizes and shapes. This gives additional possibilities that make our products tailor-made - without excess capacity, without large panels disturbing the appearance of the product.

Own machine park and prototyping workshop

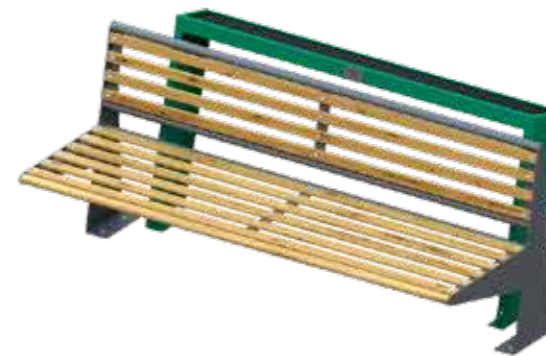

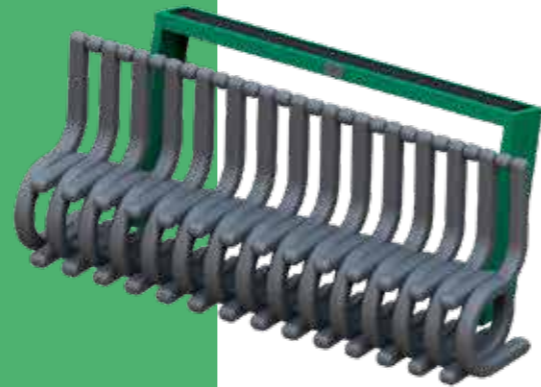

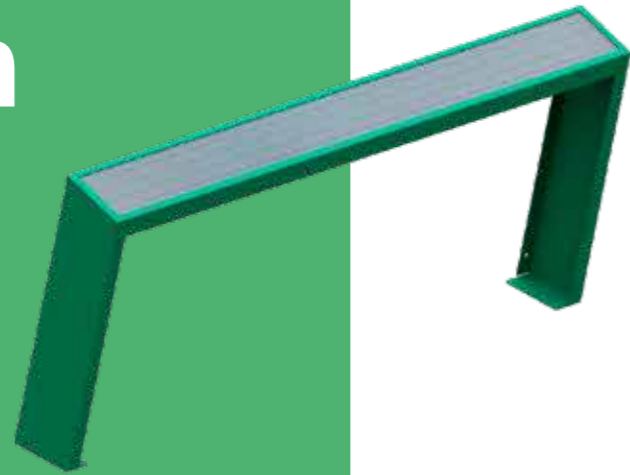

Enovio is a self-sufficient manufacturer that comprehensively develops and implements new products. We are constantly conducting R&D works on new products. We have an extensive machine park, which allows us to carry out large orders while maintaining an individual approach to the customer. Our production plant is located in Karczew near Warsaw.

Modularity and standardization

The product line allows you to build many configurations tailored to customer needs. The client selects the individual elements and composes the kit for available free space and planned budget. It is possible to purchase simple, single elements and whole sets.

Each bench can be solar powered

To make our solutions even greener, we have developed an independent module that can easily be fitted to almost any bench. Thanks to this, you can gain completely new functionalities in the old product, adapting it to the modern world. Enovio extension is equipped with a solar panel, battery and USB sockets and independent lighting. By installing this product, you save time, money and the environment, giving new life to old items.

Ecology - the use of renewable energy and materials of high durability

The use of own photovoltaic (PV) panels production, allows the devices to work autonomously without being connected to the electricity grid

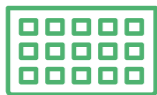

Polish production, service and technical support

Unified design for the entire product range

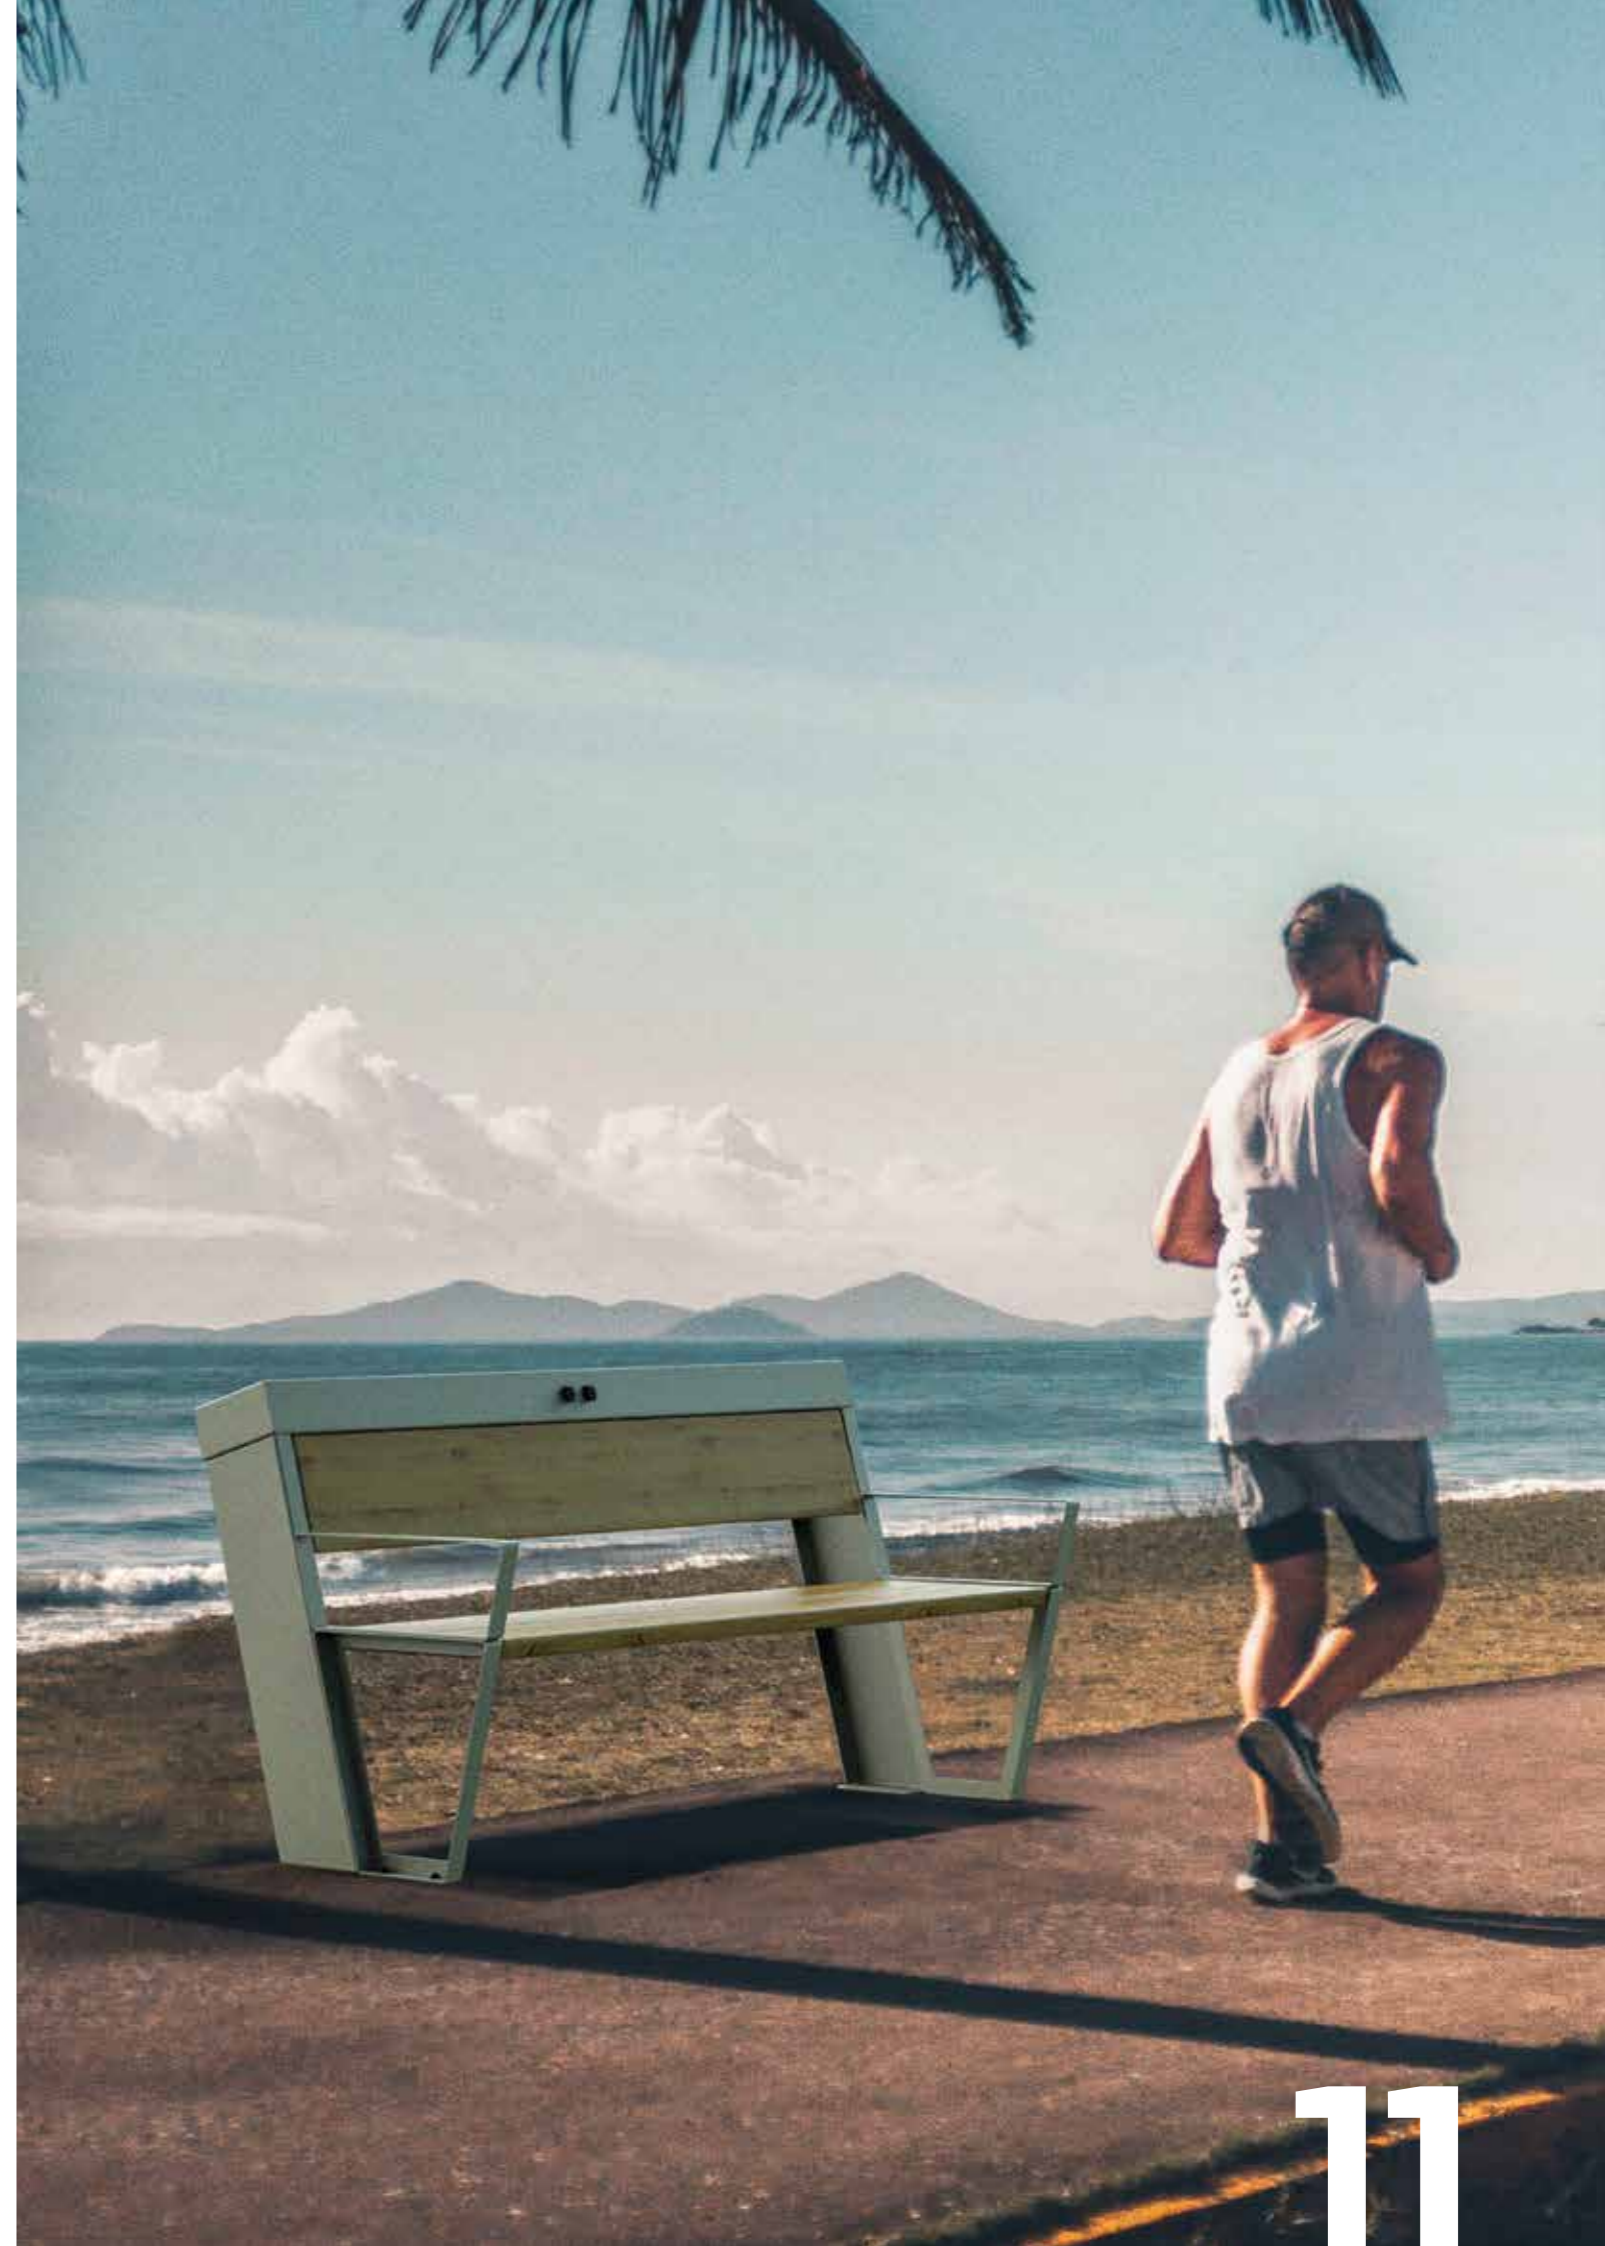

Solutions for each user group

More than 300 colors from the RAL palette

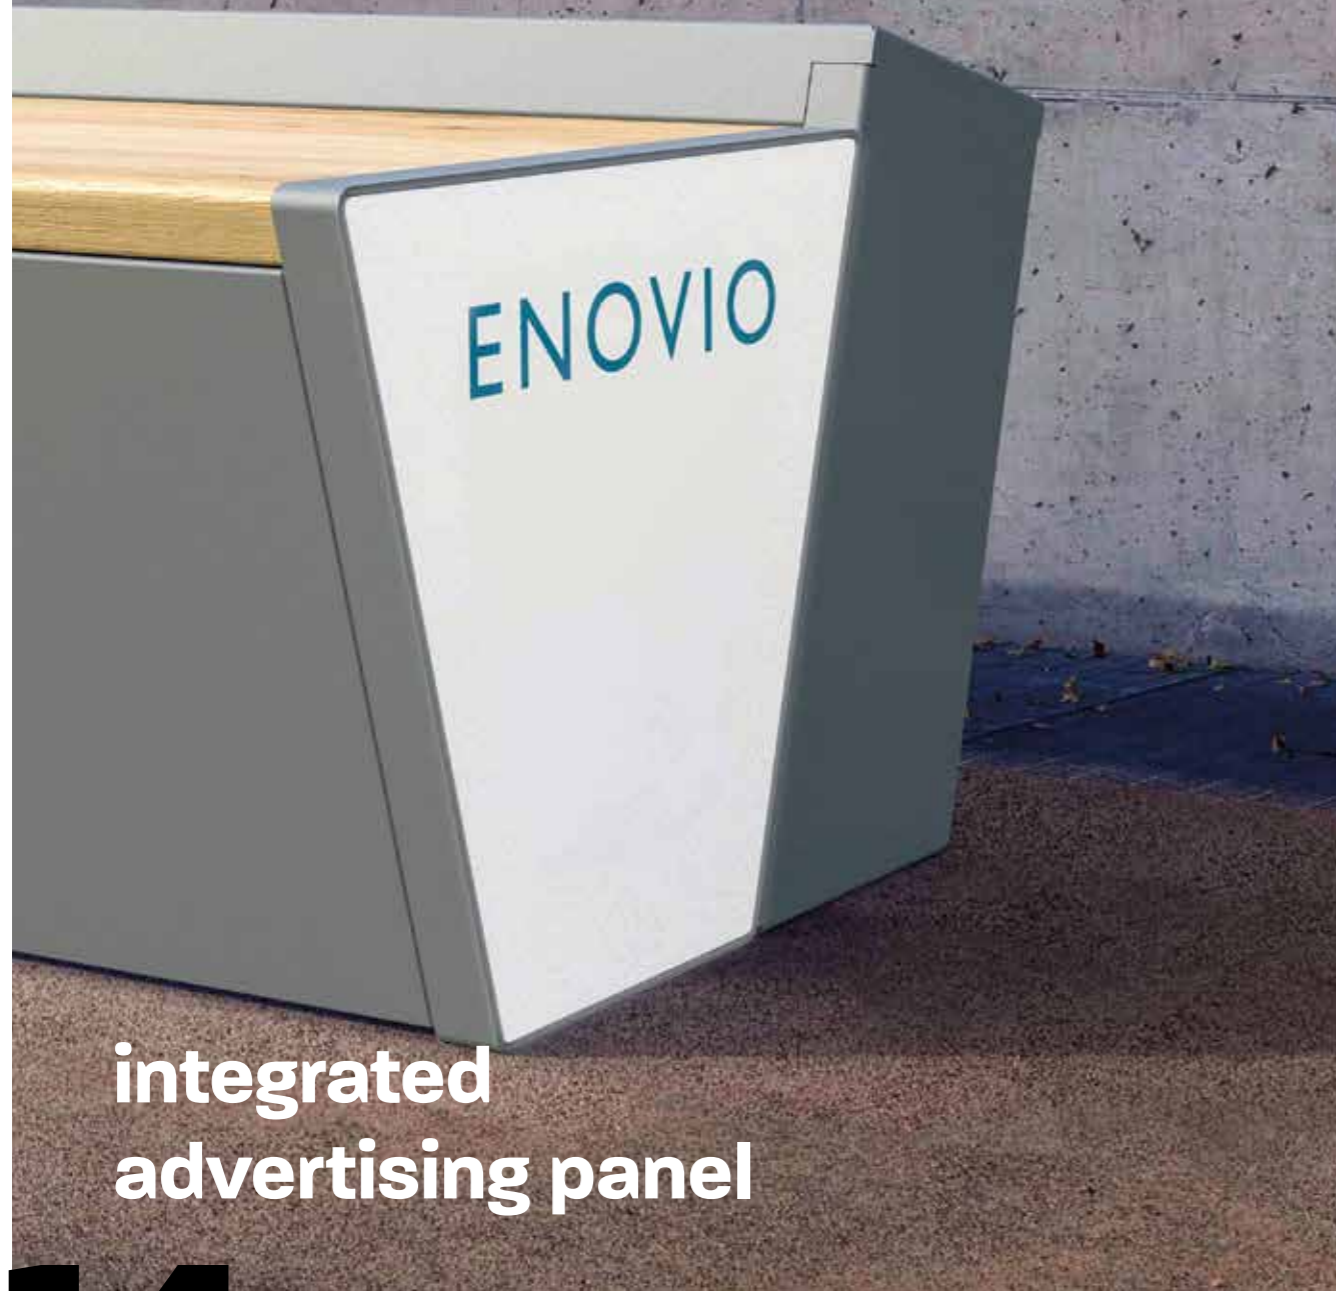

Innovative and tested technological solutions

Technical data & price list

Solar bench conversion kit

Price:

- Included:
- 40Wp solar panel
 - 2x USB charger
 - Steel structure
 - Powder coating - any RAL

- Extras:
- smog sensor
 - LED lighting
 - advertising panel

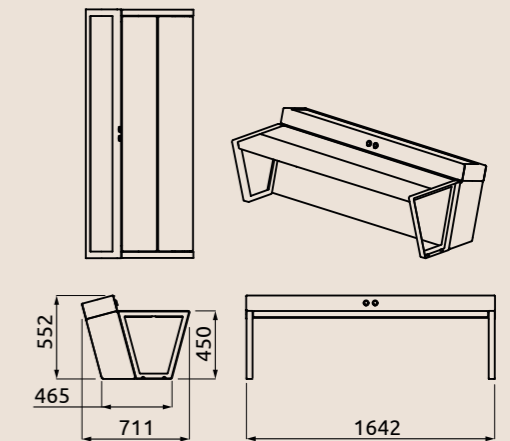

Solar bench

Price:

- Included:
- 40Wp solar panel
 - 2x USB charger
 - Steel structure
 - Steel or wooden seat
 - Powder coating - any RAL

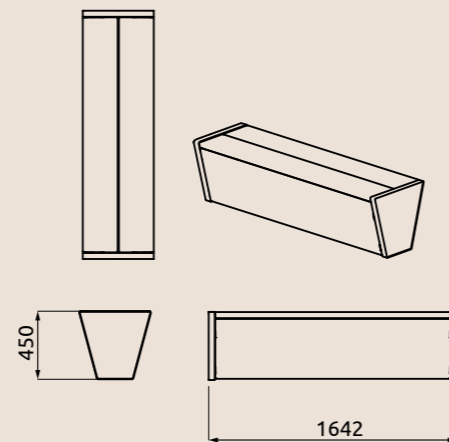

- Extras:
- smog sensor
 - LED lighting
 - advertising panel

Standard bench covered

Price:

- Included:
- Steel structure
 - Steel or wooden seat
 - Powder coating - any RAL

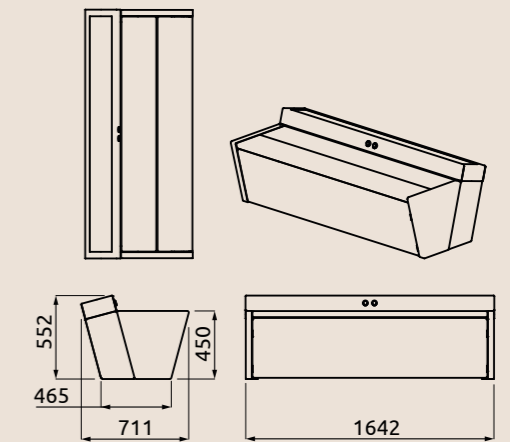

Solar bench covered

Price:

- Included:
- 40Wp solar panel
 - 2x USB charger
 - Steel structure
 - Steel or wooden seat
 - Powder coating - any RAL

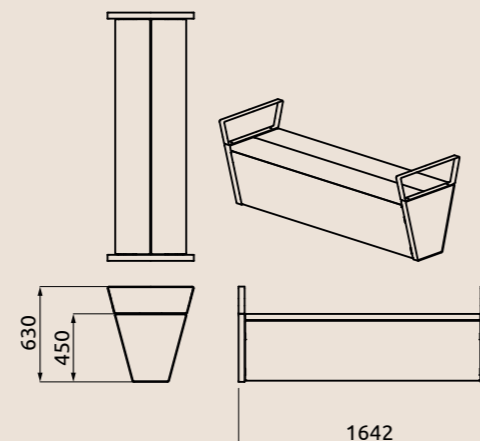

- Extras:
- smog sensor
 - LED lighting
 - advertising panel

Standard bench covered + armrests

Price:

- Included:
- Steel structure
 - Steel or wooden seat
 - Powder coating - any RAL

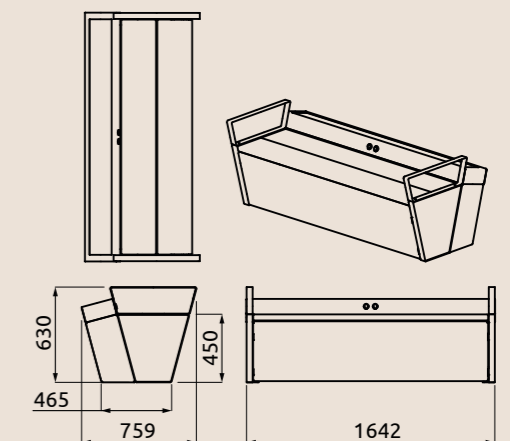

Solar bench covered + armrests

Price:

- Included:
- 40Wp solar panel
 - 2x USB charger
 - Steel structure
 - Steel or wooden seat
 - Powder coating - any RAL

- Extras:
- smog sensor
 - LED lighting
 - advertising panel

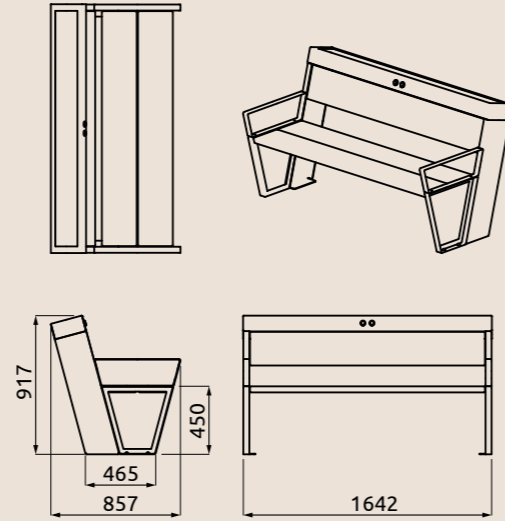

Technical data & price list

Solar bench with backrest

Price:

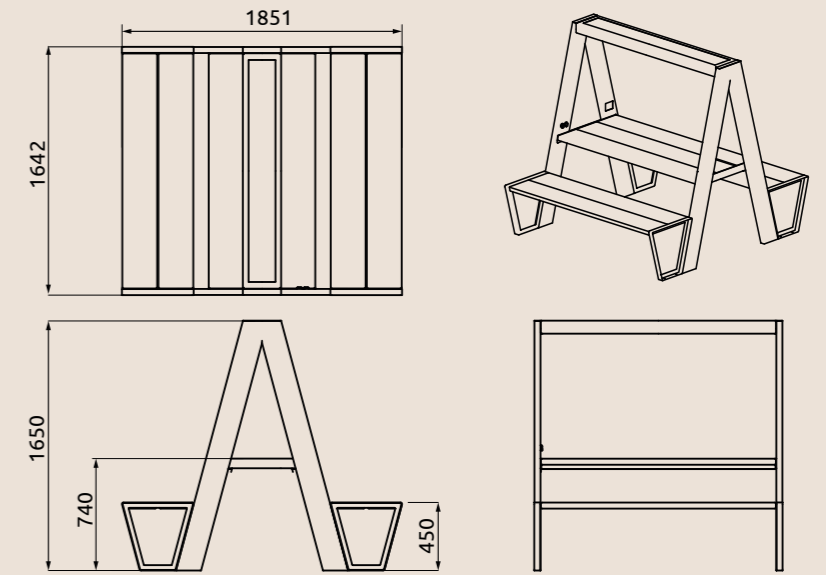

- Included:
- 40Wp solar panel
 - 2x USB charger
 - Steel structure
 - Steel or wooden seat
 - Powder coating - any RAL

Solar table with benches

Price:

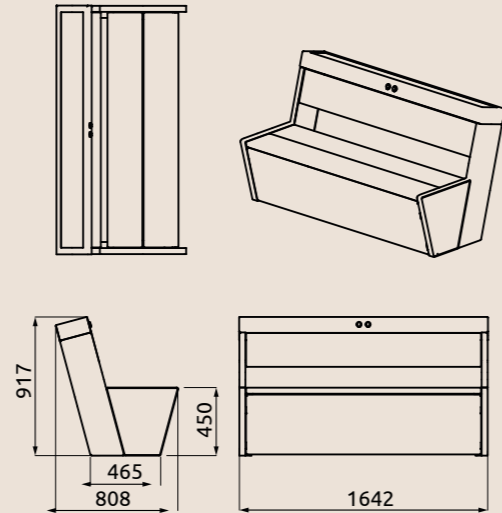

- Included:
- 40Wp solar panel
 - 2x USB charger
 - Steel structure
 - Steel or wooden seat
 - Powder coating - any RAL

Solar bench covered with backrest

Price:

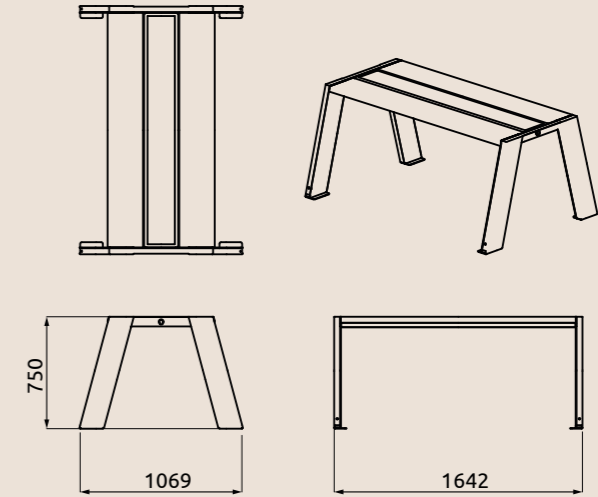

- Included:
- 40Wp solar panel
 - 2x USB charger
 - Steel structure
 - Steel or wooden seat
 - Powder coating - any RAL

Solar table

Price:

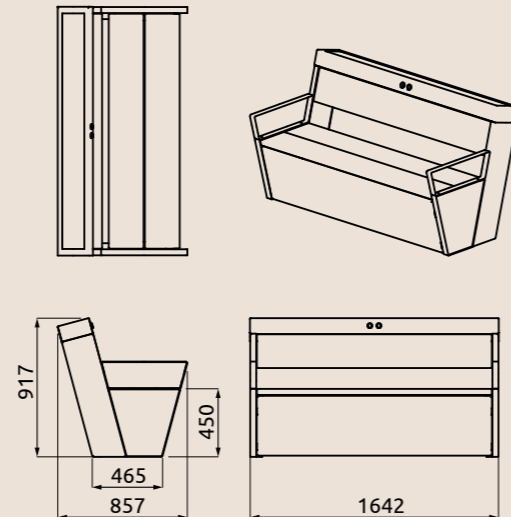

- Included:
- 40Wp solar panel
 - 2x USB charger
 - Steel structure
 - Steel or wooden seat
 - Powder coating - any RAL

Solar bench covered with backrest + armrests

Price:

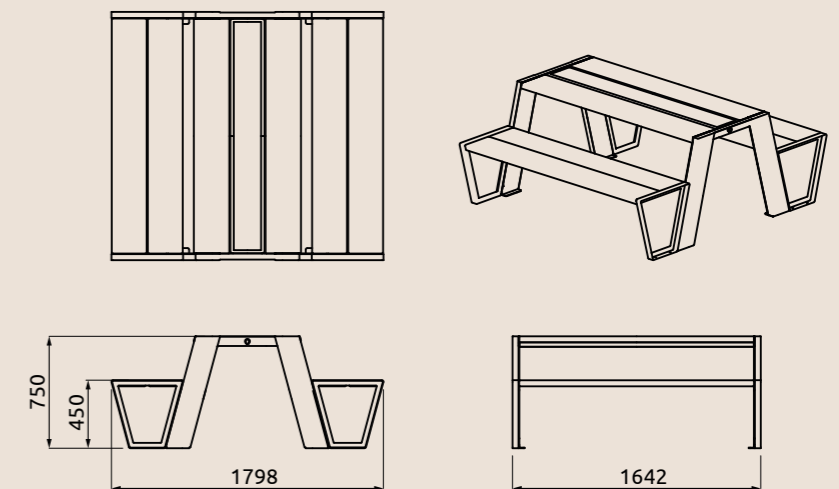

- Included:
- 40Wp solar panel
 - 2x USB charger
 - Steel structure
 - Steel or wooden seat
 - Powder coating - any RAL

Picnic bench

Price:

- Included:
- 40Wp solar panel
 - 2x USB charger
 - Steel structure
 - Steel or wooden seat
 - Powder coating - any RAL

Deckchair

Price:

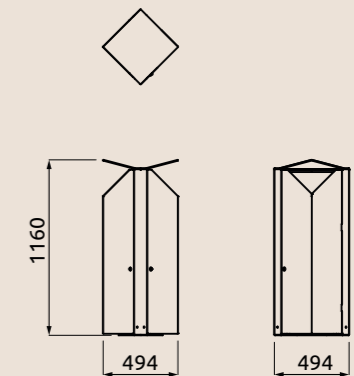

- Included:
- 40Wp solar panel
 - 2x USB charger
 - Steel structure
 - Steel or wooden seat
 - Powder coating - any RAL

Double-sided bin

Price:

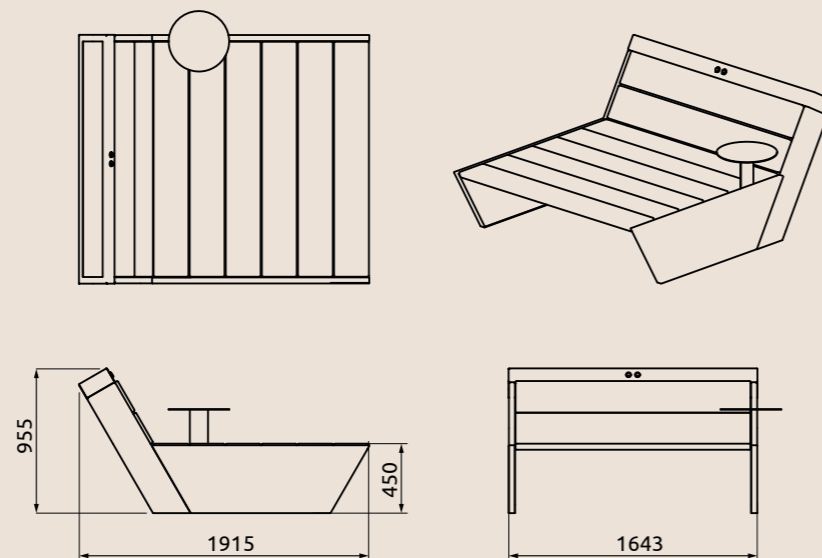

- Included:
- 20Wp solar panel
 - Stainless steel structures
 - smog sensor

Double deckchair

Price:

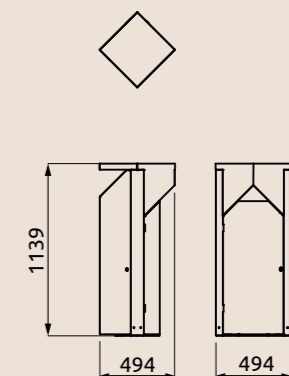

- Included:
- 40Wp solar panel
 - 2x USB charger
 - Steel structure
 - Steel or wooden seat
 - Powder coating - any RAL

Bin with PV dispenser

Price:

- Included:
- 20Wp solar panel
 - Stainless steel structure

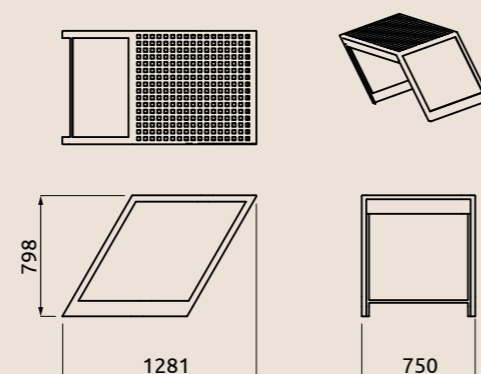

City table

Price:

- Included:
- 20Wp solar panel
 - Steel structure
 - Powder coating - any RAL

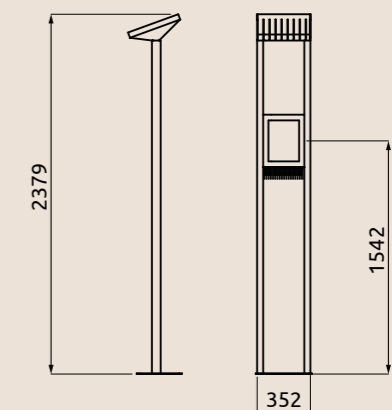

Extras:- smog sensor
