Malibu MakeOver®

SALON SERVICE RENOWNED BY ELITE STYLISTS AROUND THE GLOBE!

The choice of elite stylists worldwide, this vegan, two-step wellness service performed exclusively in the salon transforms tone, texture, vibrancy and strength of hair.

The first step is a blend of antioxidant vitamin crystals freshly-activated to form a rich gel that naturally draws out hard water deposits and other impurities. The result is a crystal-clear canvas now completely receptive to ensure brilliant services.

The second step is a powerful reconstructor formulated with multi-weight, gluten-free plant derived proteins using an intelligent technology of rebuilding hair's inner structure only where damage exists, strengthening strands from within, which results in a dramatic difference of restoring hair to its peak performance.

The Malibu MakeOver is processed in conjunction with other salon services or as a stand-alone service, revealing a head-turning hair miracle.
