B&D Instructions

Programming a new remote

1. Press and hold the desired button that you wish to operate the door on the new remote.
2. Whilst holding the button down, press and release the Code Set button on the motor. The Code Set light on the motor will flash to indicate it has learnt the new remote.
3. Release the button the remote. Your remote is now coded.

Deleting all remotes from the motor

For garage motors:

- Press and hold the Code Set button on the motor for approximately 8 to 15 seconds. The light will flash to indicate all codes have been erased. Continue to hold until the motor stops flashing/beeping, then release. Test to confirm.

For gate motors:

- For gate motors. Press and hold the Code Set button on the motor until the red LED extinguishes. This will indicate all codes have been erased. Test to confirm.

Please note that this will erase all codes, it is impossible to only erase just one code.

WARNING

This product may contain a coin/button cell battery. Keep product and batteries away from children. A battery can cause severe or fatal injuries in 2 hours or less if swallowed or placed inside any part of the body. Seek immediate medical attention if it is suspected that a coin/button cell battery has been swallowed or placed inside of any part of the body.
