## About Our Fabric:

- Stretchy LYCRA Fiber provides 4-way flexibility and maximized comfort
- Lightweight
- Antiperspirant
- Moisture-wicking
- Anti-wrinkle properties
- OEKO-TEX Standard 100 Certified

The OEKO-TEX Standard 100 is a globally recognized certification system for textiles that assures consumers that the products they purchase have been tested for harmful substances and meet stringent safety and environmental requirements. Here's what the OEKO-TEX Standard 100 certification assures:

**Product Safety:** The certification ensures that the textile product has been tested for harmful substances such as pesticides, carcinogenic colorants, heavy metals, and formaldehyde. It guarantees that the product poses no health risks to the consumer.

**Skin-Friendly Textiles:** The OEKO-TEX Standard 100 certification assures that the textile product has been tested for skin-friendly properties. It ensures that the product meets strict criteria for pH value, colorfastness, and other factors that can affect the skin's well-being.

**Compliance with Legal Requirements:** The certification guarantees that the textile product meets or exceeds the legal requirements of the country in which it is sold. It ensures compliance with regulations regarding harmful substances in textiles.

**Environmentally Friendly Production:** The OEKO-TEX Standard 100 certification includes requirements for environmentally friendly production processes. It ensures that the textile product has been produced using sustainable practices, minimizing the impact on the environment.

**Transparency and Consumer Confidence:** The certification system provides transparency in the textile supply chain, from raw materials to finished products. It gives consumers confidence that the product has undergone thorough testing and meets high safety standards.
