

Douglas F. Good, CEO, Unisync Corp.

UNISYNC CORP

“For Over Seventy Years Our Subsidiary Peerless Garments has been the Leading Operational Clothing & Equipment Supplier to the Canadian Armed Force”

ment related entities using its award-winning product design and development team, innovative off-shore and domestic production and state of the art on-line ordering and distribution systems. The acquisition of Quebec based Utility Garments Inc. in October of this year has expanded the groups bilingual capabilities as well as its design, product development, manufacturing and distribution capabilities to better service the turnkey managed uniform programs of national corporations and government agencies.

Winnipeg based Peerless Garments LP was founded in 1941 and has evolved into a major manufacturer specializing in the production and distribution of highly technical protective garments designed to provide water-resistance, wind-proofing, fire resistance and thermal comfort. Peerless is licensed to use Gore-Tec fabrics and other

specialty work wear materials and has been a major supplier to the Canadian Armed Forces since the early 1950's.

The merger of the combined capabilities of Peerless, Unisync Group and Utility Garments has resulted in a vertically-integrated full-service uniform company which is truly unique to the industry in its experience and competencies and broad service base across Canada.

The Group has been working diligently for the past few years to prepare itself to respond to the two upcoming Occupational and Non-Occupational Clothing and Footwear Programs (OCFC2 and NOFC) expected to go to RFP in the coming months. The Group's response to these large multi-billion dollar opportunities is being spearheaded by Unisync's Senior Vice President, Pierre Charron.

Unisync Corp. is a proudly Canadian publicly traded company employing over 325 people in 300,000 sq. ft. across Canada. Unisync operates through two business units: Unisync Group Limited and Peerless Garments LP.

Unisync Group Limited with its head office and main distribution facilities in Ontario provides full service managed uniform programs for marquee companies and govern-
