

## Unisync Announces Continued Build-Up in Firm DND Orders

TORONTO, Oct. 03, 2019 -- **Unisync Corp. (TSX: "UNI") ("Unisync")** is pleased to announce that the Department of National Defense ("DND") has exercised a further \$3.8 million in contract options bringing the total firm orders under contract to \$22.1 million at its Winnipeg based subsidiary, Peerless Garments LP ("Peerless"). The two options exercised involve the production of an additional \$2.4 million of flyer coveralls and \$1.4 million of flame-resistant tactical helicopter shirts and trousers. There remains a further \$7.6 million in contracted options still outstanding.

With this build-up in firm contracts, we are expecting a significant improvement in financial performance from our Peerless business unit as production capacity is ramped up internally and at sub-contractors.

### UNISYNC ON THE MOVE

Unisync is a broad-based vertically integrated North American enterprise with exceptional capabilities in garment design, domestic manufacturing, and off-shore outsourcing, including state-of-the-art web based B2B ordering, distribution, and program management systems. Unisync operates through two business units: Unisync Group Limited ("UGL") and Peerless.

UGL provides full-service, managed apparel programs for major corporations and government-related entities through operations across Canada and this year has expanded into the US marketplace through the establishment of a 45,000 sq. ft. distribution and service facility in Henderson, Nevada, and a sales and service facility in Lakewood, New Jersey. The Nevada facility is now staffed and is receiving, kitting and delivering the first phase of new uniforms for its first major US based airline account whose employees are expected to be fully outfitted with their new image wear by the first half of Fiscal 2020. UGL's customer base includes a broad list of North American iconic brands as well as municipal and provincial agencies across Canada.

Winnipeg based Peerless specializes in the manufacturing and distribution of highly technical protective garments, military operational clothing, and accessories for a broad spectrum of Federal, Provincial and Municipal government agencies in Canada. It has been the leading prime contractor for the provision of operational clothing and accessories to the DND for over 40 years.
