

# WEXEL ART

FINE ART CATALOG 2023

## Wexel + Independent Artists

W

wexel Art collaborates with independent artists across the country. Our program leads the industry as one of the most generous payment structures for artists, so they can focus on their creativity.

If you're interested in learning more about our calls for art then follow us on Instagram or email us [art@wexelart.com](mailto:art@wexelart.com) to learn more.

**W**exel Art was founded on the principle that showcasing life's little pleasures should be simple and rewarding. With a clean, contemporary design, our art displays are designed to fit into any decor.

Wexel Art is also focused on sustainability, with the goal to be a 100% plastics neutral company. We have partnered with CleanHub, an organization dedicated to preserving the planet by collecting plastic before it reaches the ocean. They will collect 4,670 pounds of ocean-bound plastic on our behalf in high-impact regions across South-East Asia. The plastic gets sorted into recyclables and non-recyclables, and the latter get sent to co-processing, entering the loop again as an alternative fuel for cement plants that would otherwise be using coal.

# Framing Options

## SHADOWBOX +

Display your art in our framing-grade acrylic shadowboxes with 98% UV grade protection that includes a lifetime warranty. Transparent sides allow you to peek at the sides of the art.

Every piece has wire and D-rings pre-installed, making it easy to hang!

## FRAME +

Your choice of hardware color

Two panels of floating acrylic “sandwich” your art for a border-less presentation. Our 98% UV protected acrylic is mar-resistant, diamond polished and includes a lifetime warranty.

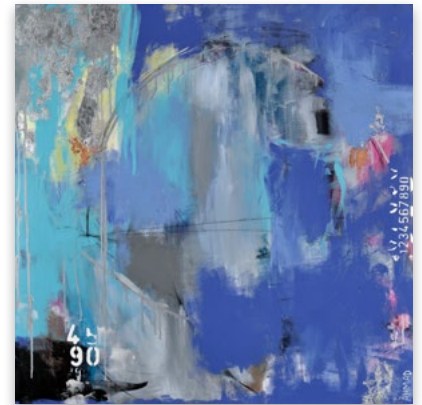

Austin, TX
