

diy Vertical Valentine Pop-Up Card

BY LUPA & PEPI

ingredients

TOOLS YOU'LL NEED

- 3 sheets of cover paper (print pgs. 2-4 of this PDF)
- white twine (approx. 4')
- xacto knife, ruler, & cutting mat
- glue stick –or– tape runner
- 1/8" hole punch
- bone folder
- white &/or gold ink pen

GET CREATIVE WITH

- use bakers twine or ribbon in lieu of white twine
- choose different paper colors

SUGGESTED USE

- give to loved ones or a secret admirer

step-by-step

STEP #1

With a ruler & bone folder, score “Outside Layer” where indicated.

STEP #2

With an xacto & straight edge, cut inside the dashed line (be precise!) & fold in half along score.

STEP #3

With a ruler & bone folder, score “Inside Layer” where indicated.

STEP #4

With an xacto & straight edge, cut inside the dashed lines & cut the 2 slots where indicated.

STEP #5

With a ruler & bone folder, score the heart along indicated points A through C. Then cut inside the dashed lines & crease the scores.

STEP #6

With the unshaded side facing up, insert the two tabs of the heart into the slots cut in “Inside Layer” & fold “Inside Layer” & heart in half.

STEP #7

Select, cut out & hole punch an arrow.

STEP #8

With a white ink pen, decorate & write sweet nothings to your valentine!

STEP #9 Apply glue to the shaded area of “Inside Layer” & the tabs of the heart.

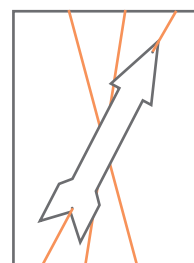

STEP #10

With “Inside Layer” folded & glue facing out, center the spine along the spine of “Outside Layer” where indicated. Press “Inside Layer” down on “Side 1” of “Outside Layer” & then fold “Outside Layer” over “Inside Layer” & smooth from the spine out.

NOTE: INSIDE LAYER IS SLIGHTLY SMALLER THAN OUTSIDE LAYER. WHEN CARD IS OPEN THERE SHOULD BE A 1/8" BORDER FRAME ON EACH SIDE.

STEP #11

Weave twine through holes (see illustration below), behind arrow, around card, & deliver to your valentine.
