

SAFETY PROTECTIVE GOGGLES

Our FDA Registered Safety Protective Goggles are perfect for medical, lab work, chemistry, woodworking, mechanics, construction and more. They have a non-slip, lightweight and rimless design that fits securely over prescription glasses, providing protection while feeling extremely comfortable all day long. The molded nose bridge design allows for a universal fit. The goggles come standard with anti-fog, anti-scratch lenses and 99.9% UV protection and meet ANSI Z87.1+ Impact Rating. The goggles can be safely cleaned daily using hot water and dish detergent, and the rimless design makes daily cleaning easy.

Key Features
