

HIGH VISIBILITY FIELD VEST

High visibility safety vests are a required necessity in many of today's work environments. Whether you are on construction sites, in hazardous working areas, or along the roadsides across the country, there are plenty of distractions that draw attention away from your presence - placing you in harm's way. The attention of drivers, machine operators, or even your co-workers can be the difference between a safe work environment and a dangerous one.

The Hi-Vis Field Vest improves your ability to be seen with our vibrant, highly visible colors and contrasting reflective stripes. Our vest is ANSI® compliant and is suitable for use during the daytime as well as in low light conditions. The breathable yet durable design makes it easy to wear, even in the hottest, harshest conditions. The zipper closure allows for easy on/off. Custom screen printing is also an option.

Key Features

- Zipper Front Closure
- Ultra-Cool Breathable Mesh Design
- ANSI/ISEA 107-2015 Class 2 Standard of High-Visibility Apparel
- High Visibility Fluorescent Yellow
- Reflective Stripes
