3 PRODUCT DESCRIPTION

3.1 BASIC USE

Insullite Pro Plus is a fire retardant cover designed to allow the installer to insulate safely and effectively around recessed lights and other heat producing fixtures.

3.2 COMPOSITION & MATERIALS

Insullite Pro Plus is manufactured from galvanized steel.

3.3 SIZE

10" x 10" x 12"

3.4 WEIGHT

3 lbs. per piece.

3.5 BENEFITS

- Manufactured vented and non-vented (per users preference)
- Allows insulation to be applied around and on top of fixtures
- Easy installation
- Compatible with all types of insulation
- Fire resistant
- Applicable to IC-rated lights to prevent shut-off feature when overheated
- Applicable to non IC-rated lights in accordance with fixture manufacturers' instructions/guidelines

4 INSTALLATION

PLACEMENT

NOTE: Use safety gloves when installing Insullite Pro Plus.

- 4.1 Fold Insullite Pro Plus to form a box. Fold in top flaps and secure using tabs.
- 4.2 Place Insullite Pro Plus over fixture (centered).

4.3 Flanges are located around the bottom of the Insullite Pro Plus for securing purposes. Acceptable ways to secure may include, but are not limited to: stapling, gluing, caulking, taping.

4.4 Knockouts are located on all four sides of the Insullite Pro Plus (non-vented) for electrical wiring leading to and from the fixture.

4.5 The Insullite Pro Plus may be modified using a utility knife or snips to fit over the hanger bars or other protrusions.

4.6 The Insullite Pro Plus (non-vented) can be used to create an air seal by taping each seam and applying spray foam at the base of the Insullite.

These are general installation instructions. Instructions on architectural or structural drawings should be reviewed and followed. Detailed installation instructions can be obtained by calling our corporate office at 866.698.6562 or online at www.isibp.com.
