

Product Design

TransferRite Ultra 1301 boasts a unique rubber-based adhesive system that provides superior adhesion to liner. The 4 mil polypropylene film offers improved clarity, dimensional stability and an adhesive system that will not haze vinyl.

Application

TransferRite Ultra 1301 works well with digital prints, multi-color overlays, partial vehicle wraps with gloss overlaminates and large format graphics.

Performance Features

- ✓ Low tack adhesion is **gentle** on digital prints and large format graphics
- ✓ Clear film has consistently **accurate registration**
- ✓ **Dimensional stability**, low static and will not burn with a torch or heat gun due to polypropylene film

Physical Properties	Values
Color	Clear
Nominal Thickness	3.9 mils (.10 mm)
Peel Adhesion @90°	4.5 oz/in (1.2 N/25mm)
Tensile Strength	15 lb/in (66 N/25mm)
Elongation	665%

All product properties are measured in accordance with Pressure Sensitive Tape Council and/or ASTM test methods. The physical properties listed above are typical values and are not to be constructed as specifications. Our suggestions and recommendations for use are based on tests we believe to be reliable. However, the purchaser must determine the suitability of the product for his intended use. American Biltrite assumes no liability for claims beyond the replacement value of our product proved to be defective.
