

Zoom Jet Line

Charcoal Cookstoves (24cm & 28cm models)

- **Combustion Chamber** refractory metal
- **Insulation** abrasion resistant, lightweight ceramic
- **Stovetop** six-pronged universal cast iron (3-prong on 24cm)
- **Body** painted sheet metal with reinforced door
- **Lining** metal with kiln-fired bottom tile
- **Handle** stainless steel and silicone
- **Door** metal with silicone grip on latch
- **Ashtray** stainless steel (not standard with 24cm model)

Efficiency

5-Liter Water Boiling Test

Conducted by Aprovecho Research Center

	Open Fire	Charcoal Jiko	Zoom Jet
CO Emissions	65g	102g	56g
Energy to Cook	21.8MJ	19.1MJ	8.9MJ
Fuel to Cook	1253g	613g	280g
Time to Boil	38 mins	18.9 mins	25 mins*

Shipping Specifications

Shipping Weight	Box Dimensions	20' Container Qty	40' Container Qty
8kg/unit (24cm)	(h) 26cm • (w) 26cm	1,120 units	2,624 units
10.3kg/unit (20cm)	(h)29cm • (w)29cm	1,050 units	2,100 units

*Results from field tests show boiling and cooking times to be 20% faster than a typical charcoal jiko and fuel savings to range from 50-70%.
