

ISSUE: I

ArtFly curates local art
in cool spaces around Eau Claire
and beyond, and gives new
and emerging artists a platform
to show their work.
The artists in this zine
have all had artwork
featured in ArtFly
exhibitions at
Racy D'Lenes Coffee Lounge.
Thank you to our talented
artists, generous venues,
and enthusiastic fans...
we love you.

“Often making artwork revolves around trying to explain a part of myself that isn’t easy to see just by looking at me.”

“Charli is a nonbinary alien with freshly plumped lips and a condition job on their fuzz. They love photoshoots and eating pizza. They hate bigots, flies and people who don’t floss.”

“Alien Sisters”
VR sculpted 3D render

“These are two sisters from a litter of 17. Floating in a universe close to ours, they create electronic music in their spaceship while plotting their visit to earth. Their bodies were sculpted in 3D, the world around them and their accessories were sculpted in Virtual Reality.”

Christy Skuban

“The success of this art is building a sense of movement or flow that directs the eyes from one colored shape of wood to another, feeling the harmonic whole that is art in three dimensions.”

to music,
I often see
the tones and
melodies in color
which is what
causes these

"For me it was about having a tool in one's hand, and the paintbrush is a tool of creation. As a creative my magic comes from what I can do with my hands and I'm still learning how to imprint bits of my soul onto the wall with my hands and my tools, all in an honest day's work."

"Art brings a sense of understanding to my life and has helped me to illuminate that. ArtFly has showed me connections of the community and how collaborating brings us closer. Close to one another and close to our true selves. Connecting to the community showed me love and has also reminded me to always embrace myself fully and authentically through life. And to be proud of the uniqueness we each bring. I thank ArtFly for bringing me closer, by allowing me take my creativity into a new realm and to create something for the community. Cheers to designing and doing something new in art. This journey has taught me to keep doing what I love and to hold onto that always."
