# Installation Guide

## Heavy Duty 80

### Site Preparation

Hedge can be placed directly onto soil, road base, sand, concrete surfaces & slabs. Site prep required is at the discretion of the installer dependent on above or below ground use.

### Joining

Simply insert Hedge custom made straight joiners into the edging profile for a seamless, uninterrupted garden edge.

### Fixings

- ✓ Use 1 x 250mm Fixing Spike per metre
- ✓ Use 1 x Spike Guide per metre

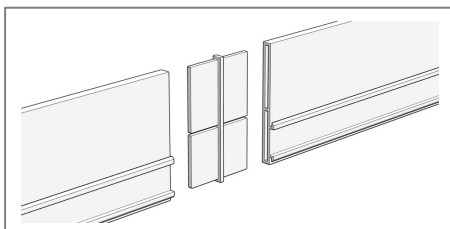

### Corners

Achieving the perfect right angle is easy with Hedge custom made corner joiners. No additional screws or fixings are required.

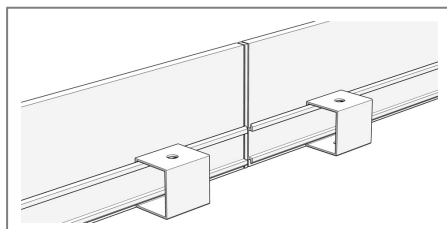

### Curves

Bend flex edge to the desired shape to create sweeping curves easily.

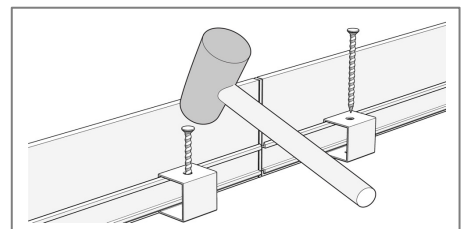

Step 1 - Join

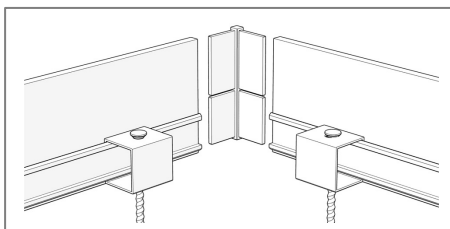

Step 2 - Connect

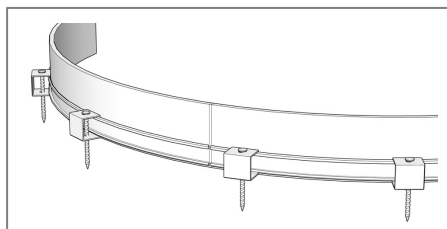

Step 3 - Install

Step 4 - Corners

Step 5 - Curves

Step 6 - Backfill
