

LE FRENCH CRAFTER

Dear friend,

Thank you for downloading this template!

For this build, I recommend using 2.4mm to 3mm thick vegetable tanned leather for the main body of the bag, and 1,4mm thick leather for the pockets.

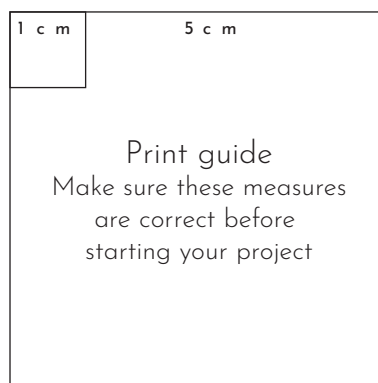

Before starting:

Make sure you print PDF file on A4 paper at 100% scale (check your printer settings) to ensure that your print will be at the original scale of the document - reference this with the Print Guide below.

Please note that this template is for personal use only and may be used for as many projects as you wish. Please do not share or sell these templates or items made using it.

Thank you and happy crafting!

James Berry
