## DRINKS

We always recommend pre-ordering enough drinks for each of your party to have at least two drinks on arrival. Once your pre-ordered drinks are finished we can either operate a tab for you to settle at the end of the evening or we can operate individual tabs for your guests to settle before they leave. Please note because deposits are non-refundable we will not be able to split your bill 'by item' (i.e. by what people have had) at the end of the evening.
