

HaloPod – *Portable Halotherapy*

With respiratory health & hygiene being so important, the HaloPod™ is another ideal way for your Clients to be able to do Halotherapy at home and is especially beneficial for those suffering from skin conditions.

What is the HaloPod

It is a portable generator with a portable tent to contain the salt. The tent comes in 4 colors—black, red, navy blue and royal blue (chair not included). There is also an attachment which can be placed near the face which helps with the dry salt absorption for individuals. The HaloPod is ideal for children and even pets.

How does the HaloPod work?

The HaloPod uses a portable Halogenerator which connects to a collapsible tent-like pod. Simply set up the pod (<30 seconds), connect and activate the Halogenerator and relax for a 15-20 minute session.

Features:

- Produces salt particles 0.3-0.5 microns in diameter for maximum penetration
- Extremely easy to setup and move around
- Full 3-year parts and labor warranty (conditions apply)
- Comes with 3-month supply of pharmaceutical grade salt
