

Hi,

I am pleased to announce that there are now five small farms selling through Maple Farmers! It's a great milestone to reach on this new venture.

- **White Rock Farm** in Randolph, VT is a dairy farm and sawmill
- **Sunnybrook Farm** in Sharon, VT is a vegetable farm
- **Gilead Brook Farm** in Bethel, VT is a dairy farm
- **The Howard Family** in Braintree, VT runs a sawmill and raises beef
- **Maple Flower Farm** in Bethel, VT is our own cut flower farm

All five farms use [wood-fired](#) evaporators. We don't use vacuum pumps or [reverse osmosis](#). The flavor of the traditionally made maple syrup is exceptional.

Maple Farmers was started to help small family farmers preserve the tradition of crafting pure maple syrup by selling collectively. The driving goal is to get more money to the farmers, and less to the processors and middle men.

All of the syrup is shipped directly to you from the farm of your choice. Visit the [website](#) to learn more about the farms and the delicious maple syrup they are offering.

It's hard to believe that we will be tapping trees within the next few weeks. I hope you have a happy and healthy spring!

- Cory

support the farms & get some syrup

New Bottles!

I am excited about the new bottles. They are quart-sized and fit nicely in the fridge. They have a solid feel in the hand and pour nicely.

Kudos to my son Seth for the design work on the labels and the logo. The bottles turned out great!

We use glass because it's infinitely recyclable and because it preserves the color and flavor of the maple syrup.

**Did you love our maple syrup?
