THE ART OF

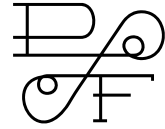

HIGH-CHARACTER  
FLOORING DESIGN

PRAVADAFLOORS.COM

A close-up photograph of a dark, weathered wood surface. The wood grain is highly textured, with a prominent knot in the center-left. The colors range from deep black and dark brown to lighter, golden-brown tones where the wood is more exposed. The lighting creates strong shadows and highlights, emphasizing the rough, cracked texture of the wood.

*We believe real wood elevates  
the style of any space or  
design approach. From classic  
to contemporary design and  
everything in between – our  
goal is to provide you with  
floors that fulfill your vision  
with the true beauty of wood.*

Pravada's designer floors are highly conceptual. Each collection envelopes a shared feel, reflected by each of its products. Inspired by Nature and global design trends – particularly the European flair, our styles are timeless. We design floors that stand the test of time for both quality and looks.

# LE SOLEIL

## CONCEPT

Le Soleil collection, launched in 2020, is reminiscent of our conceptual approach to flooring. This collection was designed to accentuate the true and natural character of European White Oak while never compromising on style. Le Soleil's floors fuse reclaimed and refined looks in perfect balance.

LOUVRE | Le Soleil Collection

## TEXTURE

Le Soleil's reclaimed charm is largely attributed to a special wire-brushing technique known as *Dutch scrape*. The Dutch scrape technique reveals wood knots, with a likeness to reclaimed wood – imperfect and bold. Knots are treated with partial fills resulting in a very natural sensory experience.

## STYLE

Dutch scrape's character is achieved by mixing high texture, reclaimed-like knots and "worn look" patches on planks with more refined wire-brushing – resulting in a balanced look and distinguished style.

FLEUR | Le Soleil Collection

# CHARACTER

Le Soleil planks are also complemented by the occasional mineral streak. Mineral streaks are naturally bleached/darkened areas of the wood resulting from the absorption of minerals extracted from the soil as the tree grows. These features – common to all woods, accentuate the reclaimed feel of this collection.

# DESIGN

Le Soleil's 9.5in wide European White Oak planks are perfect for projects calling for layers of character with floors that will elevate a space by adding depth at second glance.
