2024 CATALOGUE

Phone: (780) 716-2149

WELCOME TO OUR 2024 CATALOGUE!

We at Red Autumn Brewing Company hope that your businesses and communities are staying healthy and safe. Together with our clients, we have also had to navigate the effects of the pandemic over the past two years and respond to several unprecedented challenges. We would like to thank you for your continued support, which has enabled us to further diversify our product range in response to changes in the alcohol and hospitality industries.

Recently the federal government announced that Canada is moving forward with a comprehensive plan to ban single-use plastics by December 2022. To assist businesses in Canada with transitioning, the sale of plastic bags will continue until December 20, 2023 and stores will be able to use the product until they deplete their stock. As well, the sale of six and eight pack rings will be permitted until June 20, 2024 and the product can also be used until supplies run out. We have corn based alternatives compatible with our six and eight pack machines as an effective, eco-friendly alternative.

Red Autumn Brewing Company has long been committed to producing the smallest environmental impact possible through exploring and adding new eco-friendly products to our inventory, reducing and managing the disposition of waste by reusing material wherever possible, and recycling what cannot be reused. We invite you to explore our wide variety of recyclable plastic, paper and compostable cornstarch based bags, cloth reusable bags, cardboard wine and beer carriers and corn based and sugarcane-based six pack rings. We continue to offer the best wholesale prices on these items and we remain at the forefront of developing new products that are sustainable and eco-friendly.

Thank you for your support of our commitment to environmental sustainability. As a company and as individuals, we are making a conscious effort to produce the smallest environmental impact possible and help preserve our planet for present and future generations.

We welcome your ideas and feedback on our products and look forward to continuing to do business with you.

RINGING MACHINES

Ideal for High Volume Retail Outlets

RnR Six and Eight Pack Ringing Machines conveniently allow fast and easy application of six or eight pack rings, resulting in both time and money savings. Perfect for breaking down larger boxes or organizing loose cans, our machines are durable, built to withstand constant use, and compatible with all brands of rings

After placing the cans into the base, plastic rings are easily applied with the following three steps:

1. Lower lever to place machine cones on the cans.
2. Put RnR plastic ring on cones.
3. Lower lever again, which precisely applies the ring.

Depending on the operator's pace, machine hand-operated machines can package from 24 to 48 cans into four, six, or eight packs per minute.

Generate Significant Profit Margins

For example, you can purchase 24 can box for \$30 and use the six-pack machine to break them down into four six-packs (\$7.50 each) for individual sales. Contrast this cost to that of purchasing four-packs individually at the higher cost of \$8.25 each. This would result in an extra profit of \$3.00 per 24 can box. The machine can also make four packs.

Similarly, the eight-pack ringing machine can break down the same box into three eight packs (\$10 each) for individual sale as an alternative to purchasing eight packs at the higher cost of \$11 each, resulting in an extra profit of \$3.00 per 24 can box. The eight-pack machine can also make four packs and six packs.

ECO-FRIENDLY PLASTIC RINGS

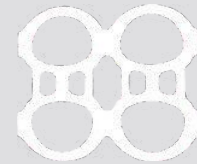

RnR Six Pack Rings responsibly manufactures and distributes high quality four, six, eight and twelve pack rings and ringing machines for use in liquor stores, breweries, and convenience stores.

Our rings are a **universal fit** for standard beer and soda cans and are made of strong, non-toxic recyclable material. They are also 100 percent biodegradable and once continuously exposed to outside elements will begin to break down and disintegrate.

Rings can be applied by hand, or by using any brand of ringing machine.

NEW ALTERNATIVES TO PLASTIC RINGS

We will be introducing **corn-based rings as a green alternative** to conventional plastic rings in 2023. Our corn-based rings are fully compatible for use with conventional six-pack ringing machines and are available for not too much more. They offer the same durability and convenience as regular plastic, but biodegrade at a faster rate and are compostable. As the global community moves towards eliminating single-use plastics, we are striving to provide our clients with practical, eco-friendly options that contribute to reducing the carbon footprint.

RINGS ALTERNATIVES

We now offer **sugarcane-based rings as a green alternative** to conventional plastic rings. Sugarcane-based rings are made from a fast-growing sustainable resource, yet offer the same convenience as plastic, come in a variety of sizes, and are available at a similar price point. They are recyclable and BPA and phthalate-free. This product line is part of our ongoing commitment to providing our clients with eco-friendly options that contribute to reducing the carbon footprint.

WINE & BAR ACCESSORIES

20 Hanging Strips

#900375

Price: \$7

Our Modern Vineyard product line showcases a wide range of the trendiest wine and bar accessories. The items we offer result from customer requests and from closely monitoring entertaining and hospitality industry trends. In addition to being both practical and high quality, these products are also great add-on purchases or impulse buys.

Consumer research suggests that appropriate promotional displays increase impulse purchases. This marketing technique is standard in grocery stores where candy bars and other add-on items are purposely displayed at the checkout aisle. Similarly, the possibilities for add-on purchases in liquor stores are endless and can include items such as bar accessories, wine bags, charms, and seasonal items.

Let us consult with you to determine which Modern Vineyard products would offer the most appeal in your store based on your inventory, store location, and seasonal demand. We also offer floor, hanging, or counter displays to showcase the merchandise.

Please contact Raj at 780-716-2149 to arrange an appointment regarding displays.

Coming 2024: Hemp Brewing and Distilling Corporation

This past year Red Autumn Brewing Company commenced our most exciting project to date. We are the new owners of the former Ukrainian National Hall in Mundare, Alberta and will soon be distilling and bottling our own vodkas, rums, and ryes. We are proud to breathe new life into a community landmark while preserving and honouring its rich history. Over the next few months, we will be completing renovations, installing equipment and working on our craft. We look forward to introducing our Alberta made premium spirits in the coming year.
