

# INFECTIOUS DISEASES

## VOLUMES 1 & 2

Robin A. Cooke

Beautifully presented in an investigative process. This unique series of cases is different from any other similar content currently published. The images are of uniformly high quality, and the text is eminently readable. It is a good reference text for trainees and practitioners in all fields of medicine, nursing, medical science, and allied health.

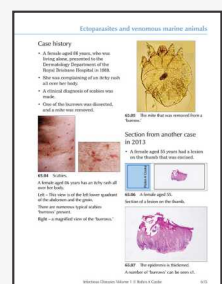

The subject matter is the result of a professional lifetime from 1960 onwards of collecting data and photographs of the medical records of patients, and the pathology from which they suffered.

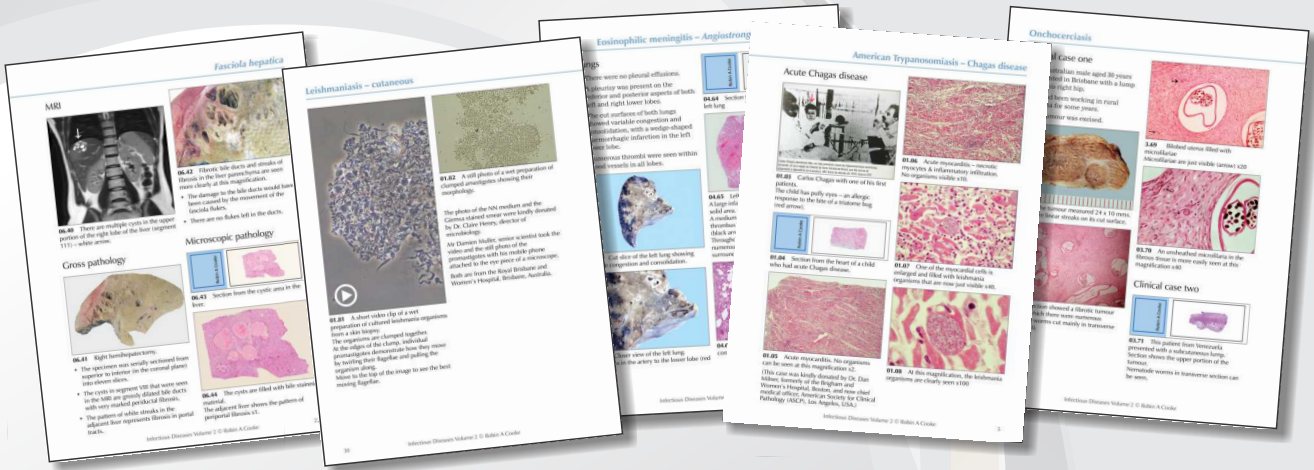

The author has had a role in the diagnosis, and often the treatment, of many of the cases.

This increases the authenticity of the book. Historical anecdotes about the diseases, and the

people who described them, are liberally sprinkled throughout the book.

Many of the diseases are presented with photographs of the medical records of the cases used by the doctors to define the diseases. Most textbooks show only the high magnification view of the organisms. This book shows how the pathologist examines the slides to 'find' the organisms. Diseases that occur in specific areas of the world where they are endemic are illustrated. Examples of these diseases when they occur in travellers or immigrants in a non-endemic environment. Under these circumstances, the medical practitioners of first contact have had no experience of these diseases, and therefore have difficulty in making a correct diagnosis.

**Osamu Matsubara, MD, PhD,**  
Emeritus Professor, Hiratsuka Kyosai Hospital  
"The best textbook of Pathology of infectious diseases."

**Prof. Dr. Francisco Couto,** Vice President for Asia, International Academy of Pathology.  
"Excellent book, well written and presented with excellent photographs."

**Dr. Rama Gopalan,**  
Prof. and Head, Dept. of Pathology,  
Sri Venkateswara Dental College  
"I highly recommend this book."

**Dan Milner,** Chief Medical Officer, ASCP  
"A really beautifully illustrated and thorough resource."

**Fred Silva, MD,** Emeritus Nephrologist,  
Former Executive Director of USCAP,  
Arkana Laboratories, Little Rock, Arkansas, USA  
"Dr. Robin Cooke has done a quite masterful job..."

**Dr Amanda Charlton,** FRCPA, Anatomical Pathologist,  
Auckland City Hospital and University of Auckland  
"Engaging, informative and liberally illustrated..."

**Dr Michael Bonning,** Medical Director, Loxley Health  
"Accessible science and a deep understanding of pathology..."

- Infectious Diseases Volume 1: Non-parasitic (eBook) **\$165.00**
- Infectious Diseases Volume 2: Parasitic (eBook) **\$165.00**
- Infectious Diseases Volumes 1 and 2 eBook Bundle **\$300.00**

Licence Details: Use is concurrent users – the actual number of users accessing the content at any one (1) time. For example, a single user is one concurrent user and for multiple use will be based on concurrent usage or log-ins. This is best managed by the library management, or we can supply a DRM version to specify usage and rights. Please contact if you require any further statement of digital rights.
