FOODS OF CHINA 1 & 2

TRADITIONAL and CONTEMPORARY FOODS in CHINA TODAY

This colourful Power Point and worksheet package takes a contemporary look at the food culture of China focusing on the multicultural perspectives of food technology in China. The food technologist perspective is demonstrated as we consider the hygienic handling of many foods and the assessment of occupational health safety issues.

This package has relevance to the study of the focus areas 'food in Australia' and 'food equity'.

FOODS of CHINA AND the IMPACT ON AUSTRALIAN EATING HABITS

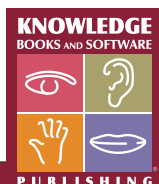

This versatile powerpoint and worksheet package focuses on food choices, the foods, ingredients and methods introduced to Australia by China and considers the impact of food availability on foods we select and the factors that influence eating habits.

It is an effective teaching tool for stage 5 and 6 teachers of Food Technology.

Included in this package are teacher answers to worksheets.
