Teacher notes: This book is about students identifying the needs of a range of living things. The range includes domestic animals and various native animals living in a natural area.

Difficult words: burrow, animal, grass, plant, eaters, field, dingo, dingoes, meat, insects, wallaby, kookaburra, snakes.

Animals need food and water. WomWom will look for food and water.

WomWom eats grass.
WomWom will explore what
animals eat.

Some animals eat seeds as food. The hens eat seeds and grass.

Animals that eat plants and
grasses are plant eaters.
WomWom is a plant eater.

Cows are plant eaters too.
Cows eat plants and grasses.
WomWom can see many
cows eating in the field.
