Teacher notes: Wild animals need to be protected in National Parks or conservation zones. This book outlines why native animals and birds need special conditions to be able to survive. The importance of conservation is introduced.

Difficult words: place, people, safe, food, near, shelter, special, think, roads, wallabies, making, parks, wild.

All animals need places to live. WomWom needs a place with lots of grass.

Some animals can live with people. WomWom can live with people. WomWom also has a safe place with food.

WomWom can live near people. Most animals need lots of space. Animals do not need people.

WomWom lives in a burrow.
Wombats need a burrow for
shelter. Wombats need
burrow for being safe.

Whales live in the ocean.
Whales need many things to
live. What do you think are
the whale's needs?
