

VerVita® Nutrition

GastroDigest II®

PRODUCT SUMMARY

Digestion is your body's food processing system. When everything runs smoothly, your body gets the nutrients it needs to keep you energized, healthy, and feeling great. When digestion falters, it's like a traffic jam inside your body. Nutrients from even the healthiest meals fail to reach their destination, leading to bloating, gas, heartburn, and fatigue. Poor digestion can even weaken your immune system and slow your body's ability to remove toxins.

GastroDigest II clears the roadblocks in your digestive system, smoothing the way for better nutrient absorption, stronger immunity, and natural detoxification. When digestion flows effortlessly, your body feels energized, balanced, and ready to take on the day.

By supporting every stage of digestion, GastroDigest II ensures that your stomach, small intestine, liver, pancreas, and gallbladder work together seamlessly. This harmony helps your body break down food more effectively and absorb vital nutrients, so you can thrive.

GastroDigest II® Contains 90 Capsules

TRANSFORM YOUR DIGESTION WITH GASTRODIGEST II®

- **Reduce Digestive Discomfort**
Say goodbye to bloating, gas, and heartburn as GastroDigest II helps reduce these common digestive issues, making you feel more comfortable.
- **Increase Energy Levels**
Proper digestion gives your body the fuel it needs from food, providing energy throughout the day.
- **Boost Immunity and Speed Up Recovery**
Proper digestion and stable blood sugar levels support a stronger immune system, helping your body fend off infections, and if you get sick, heal more quickly.
- **Release Excess Weight**
Healthy digestion helps eliminate toxins, stabilize blood sugar, and boost metabolism for more effective calorie burning.
- **Gallbladder Support (Even If You Don't Have One)**
GastroDigest II helps to digest fats, ensuring you still get the nutrients you need without discomfort.

Getting To The Heart Of The Matter For Health And Vitality

GastroDigest II®

KEY INGREDIENTS IN GASTRODIGEST II®

Digestive Enzymes

Betaine hydrochloride supports stomach acid production to break down proteins and absorb nutrients like iron, calcium, and vitamin B12. It also prevents bacterial overgrowth in the gut. **Pepsin** breaks down proteins into smaller peptides for better absorption and use. **Papain** assists in breaking down proteins and amino acids to enhance nutrient absorption. **Pancreatin** and **pancrelipase** are a mixture of digestive enzymes produced by the pancreas, including lipase (for fats), protease (for proteins), and amylase (for carbohydrates). **Ox bile** supports fat digestion by emulsifying fats in the small intestine, aiding in the absorption of fat-soluble vitamins and nutrients. **Bromelain** assists in breaking down dietary proteins, enhancing nutrient absorption, and potentially reducing inflammation in the digestive tract.

Amino Acids and Others

L-glutamic acid helps maintain the stomach's acidic environment for proper protein digestion. It also supports energy production through ATP synthesis and plays a role in liver function and detoxification, both essential for metabolizing carbohydrates and fats. **Choline** is crucial for neurotransmitter synthesis, aids liver health and toxin excretion, facilitates bile production for fat digestion, and is essential for proper brain development during pregnancy and infancy. **Beet root** contains dietary fiber and nutrients that support digestive health, including liver function and bile production. This aids in overall digestion and nutrient absorption.

Supplement Facts

Serving Size: 1

Servings per bottle: 90

	Amount Per Serving	Daily Value
First phase (stomach):		
Betaine HCl	150 mg	*
L-glutamic acid HCl	100 mg	*
Pepsin	100 mg	*
Papain	50 mg	*
Choline (bitartrate)	25 mg	*
<i>Beta vulgaris</i> (beet) root extract (organic)		
	10 mg	*
Second phase (duodenum/small intestine):		
Pancreatin 4x (porcine)**	100 mg	*
Ox bile extract**	65 mg	*
Pancrelipase (porcine)**	50 mg	*
Bromelain (2400 GDU/g)**	30 mg	*

*Daily Value not established.

Other Ingredients: magnesium (as amino acid chelate), pharmaceutical glaze (enteric coating), gelatin (capsule)

**Enteric coated

PREGNANT AND BREASTFEEDING WOMEN:

This product is thoughtfully formulated to be safe for most individuals, including pregnant and breastfeeding women. Consult your doctor to ensure it aligns with your unique health needs.

VERVITA PRODUCTS ARE FREE FROM:

GMOs, Soy, Gluten, Corn, Egg and Dairy, Fish, Crustaceans/Shellfish, Tree Nuts, Peanuts, MSG, Sugar and Sweeteners, Artificial Colors, Dicalcium Phosphate, Magnesium Stearate, Croscarmellose, Excipients/Synthetic Fillers and Flow Agents.
