

# AGELESS IRON

---

## ALL ABOUT ACCESSORIES.

*Ageless Iron releases a beautiful collection that includes hooks, doorstops and wall covers.*

(Denver, CO – June 22, 2022) Accessories are a key element of any stylish outfit, supplying interest and charm and helping to create a polished head-to-toe look. This holds true for interior design too, with accessories complimenting other elements in the room to form a fully cohesive space. Ageless Iron is pleased to offer a new line of meticulously crafted accessories that perfectly enhance their collection of premium iron door hardware. From coat hooks to door stops to wall plates, Ageless Iron accessories are beautiful and practical with a rich black patina that is on-trend with today's hottest styles, including modern farmhouse, urban loft and industrial chic.

The Blacksmith Coat Hook is a subtle way to add luxurious style to any room. Its sturdy construction will accommodate bulky winter jackets, and all manner of shopping bags, backpacks and more. A simple schoolhouse shape and clean edges are enhanced by a unique surface texture for a custom look. Also available in the accessories line are two sizes of doorstops. Offered in 3" and 4" lengths, these sleek doorstops have a simple, appealing design with round heads and tapered stems that fasten directly into doors or baseboards. Both the hooks and doorstops are made from cast iron and finished by hand by skilled craftsmen.

Ageless Iron has also included an assortment of outlet covers and switchplates in their accessories collection. Replacing ordinary elements with elegant upgrades from Ageless Iron is a small detail that quickly elevates an entire room, improving both aesthetics and functionality. Their outlet covers are available in single and double configurations with beveled edges and a textured black finish. The switch plates bring a clean, classic look as the dark hue adds dramatic contrast against white or light-colored walls. The collection includes switchplates in single, double or triple toggle designs, all pairing perfectly with the brand's hardware for a pleasingly consistent look.

As a company known for extraordinary craftsmanship and diligence, Ageless Iron brings a meticulous eye to every component of the manufacturing process. All hardware and accessories are zinc-plated and powder coated for exceptional

durability and resistance to corrosion, UV weathering and scratches. Mounting hardware is included with every order for easy installation, and all products are backed by an extensive five-year warranty.

Celebrate the beauty of cohesive design with the new line of accessories from Ageless Iron. Their exquisite black textured finished is both modern and classic, and always a favorite pick for trendy décor styles. Create a design space that is thoughtfully finished to the last detail with Ageless Iron.
