

MAGICGLASS

HIGH-RISE MAINTENANCE

ROPE ACCESS DIVISION

LOCATION: MACQUARIE PARK, NSW
DURATION: 1 DAY
CLIENT: GOODMAN

Fabricated custom panel sized to appropriately accommodate the area and Installation

The Challenge

This project required the removal and replacement of a high-rise damaged glass panel. Magic Glass was tasked with removing the glass panel, and replacing it with a new custom window panel that was sized to fit the job.

The Solution

The Magic Glass Rope Access Division completed this project. We fabricated a custom panel sized to appropriately accommodate the job section.

The Feedback

Magic Glass got very good feedback from the Goodman Group, they were especially impressed with the speed and urgency of the turnaround time.

Project Points

✓ Delivery Model

Removal of broken glass and Installation of custom fitted glass window panel.
