

LOCATION: 28 BURKE ROAD CRONULLA, NSW
DURATION: 10 WEEKS
CLIENT: PALOMA APARTMENTS, FC BUILDING

Fabrication and installation of custom commercial window systems, door systems, balustrades and skylights

The Challenge

This project involved the development of a high end 8-unit residential apartment complex, situated in Cronulla. Magic Glass worked with our partner FC Building to complete all required glazing work, including the fabrication and installation of custom commercial window systems, door systems, balustrades, and skylights.

The Solution

Project was delivered on-time and on-budget with the glazing works matching the high end finishes of this prestigious building

The Feedback

This premium build was designed to fit into the modern coastal area and has done exactly that. Everyone, including clients and new owners are very happy with the outcome. FC Building delivered a high-quality job and we are proud to have worked alongside their team to help them achieve this.

Project Points

✓ Delivery Model

All glazing requirements. This involved the fabrication and installation of custom commercial window systems, door systems, balustrades and skylights for high end residential unit complex
