

LOCATION: 62 PITT STREET, SYDNEY NSW  
DURATION: 1 DAY  
CLIENT: BANK OF SYDNEY

Replacement of vandalised glass with new laminated panel in Bank of Sydney storefront.

## The Challenge

Magic Glass was tasked with the replacement of a vandalised storefront in Sydney's CBD. This involved the removal of the damaged glass, custom fabrication of a new laminated glass panel, and installation of the new panel.

## The Solution

Magic Glass successfully completed the job. As the glass panel was very big and heavy, weighing approximately 200 kg, special care had to be taken to ensure the glass was safely transported and installed into the storefront.

## The Feedback

The client was delighted with the speed, quality, and efficiency of Magic Glass' work and services.

## Project Points

### ✓ Delivery Model

Replacement of vandalised glass storefront with custom made laminated glass panel.
