*Hair is soft and nourished, hair colour is revived
with the double action of whipped cream
and the direct pigments contained within the product.*

/ combines the toning action

with a protective quality that detangles and conditions the hair

/ suitable for all hair types

/ improves the quality of cosmetic colour

/ no rinse formulas

Recommend the service and fill the cup in front of the customer,

the texture and fragrance of the chosen shade will delight the client

who will ask you for the service again and again.

A service that:

/ completes the milk_shake® colour range

/ refreshes colour a few weeks after a colour service

/ temporarily tones lighter bases

/ can be recommended:

after a cut, before a blow dry, for lightened,
untreated or colour-treated hair.

milk_shake® colour sorbet is a service suitable for those clients who have untreated, colour-treated or lightened hair.

/ On colour-treated hair using **milk_shake® creative** conditioning permanent colour or **smoothies** conditioning semi-permanent colour, it improves colour tones prolonging colour radiance over time.

/ On lightened or very light blond hair, this can create temporary colour tones in the hair. The starting level determines the intensity of results that will be more intense on level 10's and less intense on darker levels.

/ On natural hair it gives shine and a touch of light.

*A fresh,
original,
exciting
service...*

for everyone!
