Durability.

TRADE SERIES  
**EXCLUSIVE**

# Compact Efficiency That Lasts

The most popular pool heater among pros, the Hi-E2® sets the standard with a proven in-use record of over 20 years of reliable performance. Ultra-efficient with a low-maintenance design the Hi-E2 is small, lightweight and easy to install indoors.

## Compact and Lightweight

33% smaller footprint, 42% smaller in volume and 34% lighter than the leading competitor

## Best Indoor Installation

Direct connection of PVC venting and intake air provides flexible indoor installation with no additional parts

## Ultra-Efficient Heating

Features an impressive 95% heating efficiency rating and reduces operating costs by 15% or more\*

## Long-Lasting

Over 20 years of proven in-use performance

\*Versus 399K BTU heater with minimum DOE efficiency of 82%

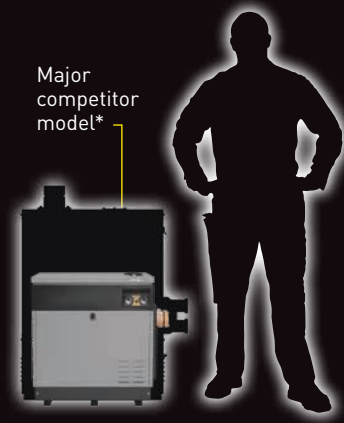

## Above and Beyond

Exceeds the requirements of energy conservation regulations such as those in California, Hawaii, New York, Oregon and other states which require that a pool heater have intermittent ignition.

## TRADE SERIES **EXCLUSIVE**

The Hi-E2 is part of our Trade Series Exclusive line of products — over 30 of our most innovative products reserved for you to protect your profit margins.

## Features

Major competitor model\*

### Big or Small, Fits Them All

Indoor or out, new construction or retrofit, the compact and lightweight Hi-E2® is ideal for both residential and commercial applications.

### Safe and Easy to Maintain

With no expensive cartridges to replace and built-in condensation management, maintenance is simple.

### Practical and Powerful Pool Heating

The Hi-E2 combustion system includes a heat exchanger which extracts 95% of the energy from gas fuel.

### Anytime, Anywhere

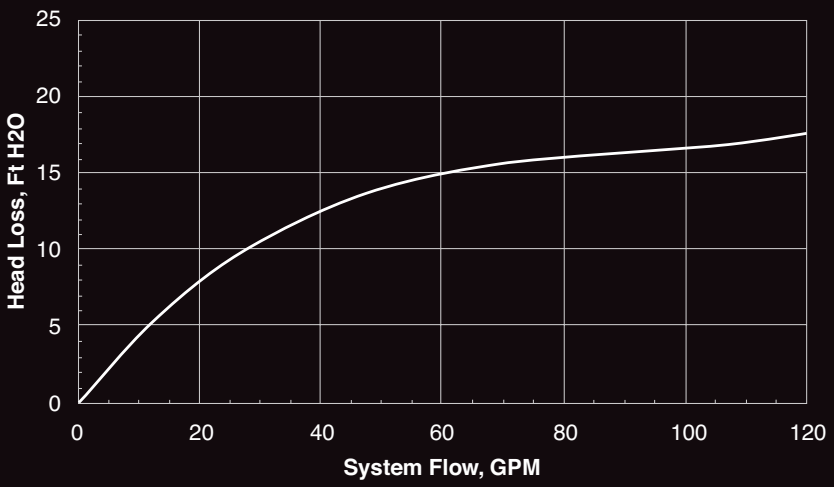

Unique induced draft system and included vent connections makes this the ideal heater for use in extreme weather and in difficult or unusual locations.

### Get More For Less.

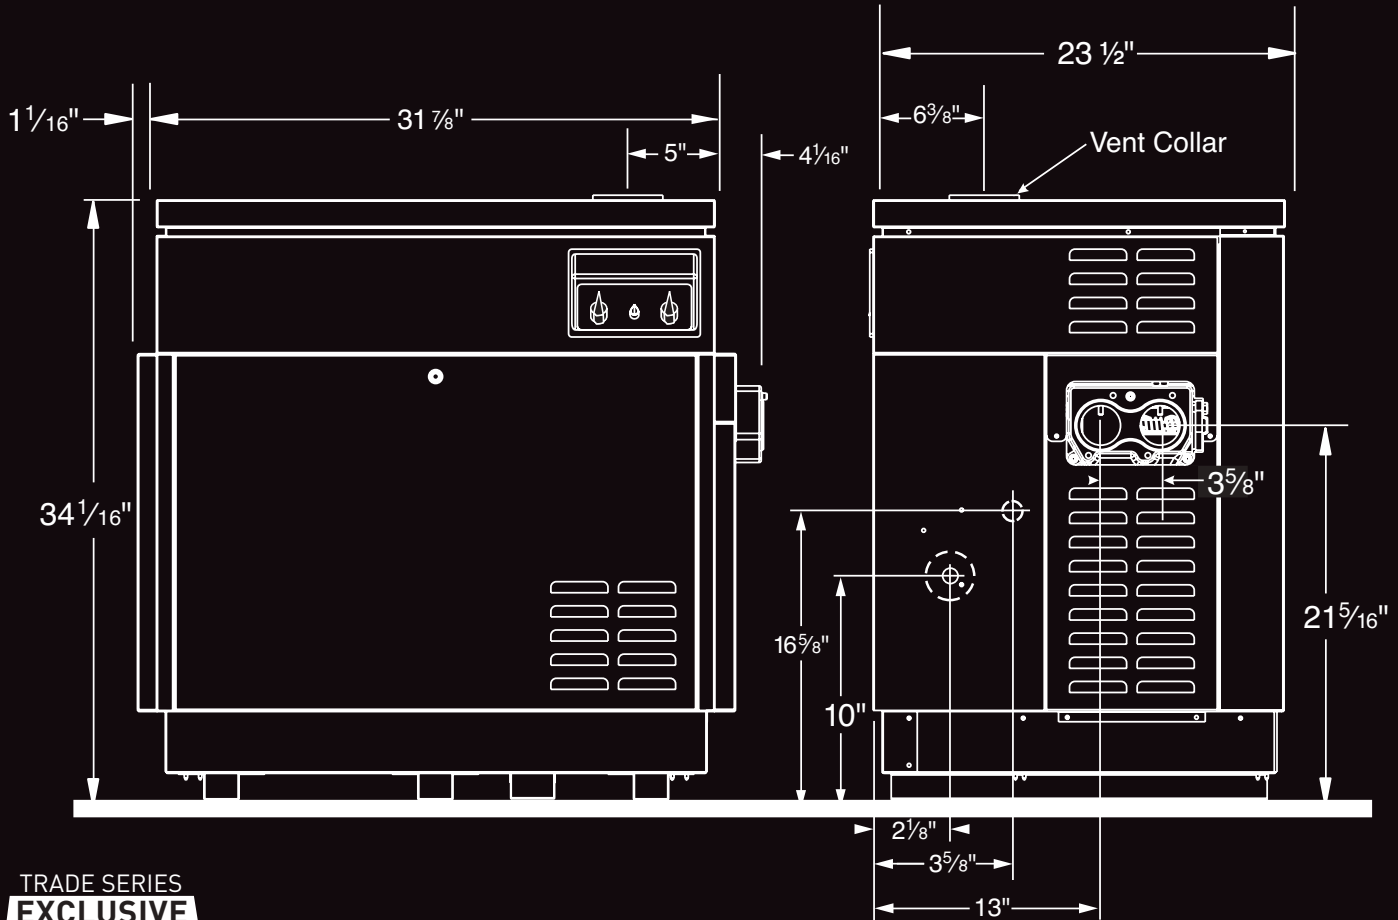

Turn up the heat — not your expenses. The Hi-E2 is an extremely efficient gas-fired pool and spa heater that cuts your cost of operation by 15% or more!\*

\*Versus 399K BTU heater with minimum DOE efficiency of 82%

Head Loss - EHE 350 Pool Heater
