

HOW TO ORDER SALT CHLORINATION

Choose the salt chlorinator right for your lifestyle and pool. After you've selected your salt chlorinator, choose further options.

AquaRite® In-Ground Pool Salt Chlorination	
AQR-PRO-CUL	AquaRite Pro software revision 1.10
AQR15CUL	AquaRite with T-CELL-15 for pools up to 40,000 gallons (151,000L)
AQR9CUL	AquaRite with T-CELL-9 for pools up to 25,000 gallons (94,000L)
AQR3CUL	AquaRite with T-CELL-3 for pools up to 15,000 gallons (56,000L)
AQR15XLCUL	AquaRite XL with T-CELL-15 for pools up to 40,000 gallons (151,000L)
AQR9XLCUL	AquaRite XL with T-CELL-9 for pools up to 25,000 gallons (94,000L)
AQR3XLCUL	AquaRite XL with T-CELL-3 for pools up to 15,000 gallons (56,000L)
Sense and Dispense® Automation (AquaRite Pro only)	
AQL-CHEM*	ORP and pH Sense, ORP Dispense
AQL-CHEM2*	pH Dispense, 120V Solenoid Valve for CO ₂
AQL-CHEM2-240*	pH Dispense, 240V Solenoid Valve for CO ₂
AQL-CHEM3-120*	pH Dispense, 120V for Acid Feed System
AQL-CHEM3-240*	pH Dispense, 240V for Acid Feed System
AquaConnect® Remote Pool Management (AquaRite Pro only)	
AQ-CO-HOMENET**	Aqua Connect® Home Network Device
AQL2-BASE-RF	Wireless Antenna
AquaTrol® Above-Ground Salt Chlorination	
AQ-TROL-RJ-CUL	AquaTrol, return jet, straight blade

*Sense and Dispense chemistry automation options available only on AquaRite Pro.

**Aqua Connect remote pool management option available only on AquaRite Pro.

SALT CHLORINATION SYSTEMS

The World's #1
Salt Chlorinator

SANITIZATION

Total System: Pumps | Filters | Heating | Cleaners | **Sanitization** | Automation | Lighting | Safety

Convenience and Comfort.

The best value from the #1 company in salt chlorination.

Forget about mixing, measuring or messing around with liquid or tablet chlorine. Say goodbye to red eyes, itchy skin and heavy chemical odors. Now there's an easier, more efficient and cost-effective way to satisfy 100% of your pool and spa sanitization needs and enjoy water that's always clean, clear and luxuriously soft.

More Hayward® salt chlorination systems have been installed than those of any two other manufacturers combined. Hayward knows salt chlorination, and people trust Hayward.

SALT CHLORINATION FOR IN-GROUND POOLS

AquaRite® Pro with Sense and Dispense®

Automating your pool chemistry has never been easier. The professional-grade AquaRite Pro salt chlorinator takes pool and spa sanitization and chemistry management to new levels, building upon the industry-leading salt chlorinator – AquaRite. This integrated solution automatically senses chlorine and pH levels and dispenses a self-renewing supply of pure chlorine generated from salt while controlling pH. Integrating chemistry automation with sanitization eliminates the need for an additional device on the pool pad and lowers installation costs. So now you get the most consistent water quality possible – for water that's brilliant, soft and silky smooth.

AquaRite® and AquaRite® Low Salt

The World's #1 Salt Chlorinator

Hayward's AquaRite salt chlorinator is the convenient alternative to conventional chlorine – bringing your pool the very best in soft, silky water with no more red eyes, itchy skin or harsh odors. It's remarkably convenient, too, automatically delivering salt chlorine for the ultimate swimming experience. And AquaRite is independently certified by the National Sanitation Foundation. With the industry's best warranty support, plus 50% or more savings over conventional chlorine, no wonder it's the World's #1 salt chlorinator today.

AquaRite Low Salt offers the same simple, safe and affordable approach to pool sanitization as the original AquaRite but uses virtually half the amount of salt, making it an even more environmentally friendly approach to salt chlorine generation.

AquaConnect® Remote Pool Management

Aqua Connect® gives you two ways to manage pool, spa and backyard functions. Aqua Connect Web allows you to monitor and manage your pool from anywhere via the Internet using any WiFi-enabled device. Aqua Connect Home Network also allows you to use any of your WiFi devices as a remote, but within five hundred feet of your pool equipment.

SALT CHLORINATION FOR ABOVE-GROUND POOLS

AquaTrol®

This is the affordable all-in-one salt-chlorine-generation solution for above-ground pools. AquaTrol includes the Salt Chlorination Control unit, an 18,000-gallon TurboCell and plumbing kit.

approximate teaspoons per gallon.

TurboCell Model	Pounds of Chlorine Produced**
T-CELL-3	210
T-CELL-9	385
T-CELL-15	580

USE A MINIMAL AMOUNT OF SALT

A teaspoon of salt per gallon is all it takes. Salt won't wear out or evaporate; it's used over and over again. Day-in and day-out, you have fresh, pure chlorine introduced evenly throughout your swimming pool and spa. Salt-chlorinated water is perfect for plaster, pebble, vinyl and fiberglass pools up to 40,000 gallons.* (151,416L)

*For pools over 40,000 gallons, look into Saline C™ 6.0, ideal for residential pools up to 125,000 gallons (473, 176L)

TURBOCELL® SALT CHLORINATOR CELLS

Independently tested and proven by the National Sanitation Foundation (NSF), genuine Hayward TurboCell technology has been reliably delivering salt chlorine for nearly two decades. With savings of 50% or more over conventional chlorine costs, it's not only the #1 salt chlorination cell in the world, it's the best value. Other replacement cells offer significantly less life and less chlorine. Compare for yourself.

**Equivalent pounds of Trichlor produced over the lifetime of the cell with properly maintained cell and water chemistry.
