

DECK JET

WATER EFFECT

When water moves, magic happens.

Perhaps nothing else soothes the soul like the sight and sound of moving water. That's why water features are such a popular and fast-growing enhancement to pools and poolside environments. With Deck Jet water effects from Pentair, you can add to the peace and tranquility of your poolside experience a number of ways...more economically than before.

DECK JET WATER EFFECT

Magic water feature for every pool.

Early water features were designed for commercial applications and later adapted to residential use. The result was over-engineering and high prices. The Deck Jet water effect from Pentair is specifically designed for residential use, using materials of construction and manufacturing techniques that allow lower costs. All-plastic construction of key parts lowers initial and lifetime system costs while providing trouble-free operation with little or no maintenance.

Deck Jet water effects can be cast into concrete decks and gunite pool walls, mounted in the sidewall of aboveground and vinyl-lined pools, or integrated into surrounding landscapes.

KEY FEATURES

Water effects

Are available with five distinctive spray patterns and won't collect debris like competitive designs.

Streams reach up to eight feet

Allowing an endless variety of design options.

Attractive Installation

With no unsightly or unsafe edges or screws.

Jets install flush to surfaces

To virtually disappear from sight.

Spray height and direction

Are easily adjusted to vary water effects.

Jets are easy to remove and replace

To reduce long-term maintenance and allow new water effects.

Low water pressure requirement

For minimum impact on pump expense and performance (<3.5 gpm at 15 feet of head).

Single 3/16" Stream

Single 5/16" Stream

Single 1/4" Stream

Fan Spray

Drawing shows simplicity of installation—similar to other pool plumbing tasks.
