

A Durable Cleaner to Keep Light Commercial HMAC Pools Clean

The Polaris VORTRAX 25iQ Light Commercial HMAC Robotic Cleaner combines powerful performance with a durable design to withstand the demands of everyday cleaning for small to medium high-use, HMAC commercial pools.

Top Prioritized Features

Enhanced Sensor Nav System™

Automatically adjusts and adapts to fluctuating factors — such as water depth and acceleration — for comprehensive cleaning while providing status updates, like water temperature, to your iAquaLink® app.

SMART Cycle Cleaning Mode

Assesses pool's shape, size and surface material to calculate the optimal cleaning time needed to effectively and efficiently clean the entire pool.

Dual-Stage Filtration

From leaves and acorns to sand, silt and strands of hair, the Dual-Stage Filtration System is comprised of two stackable mesh filters — a general purpose filter and a fine particulate filter — to collect both granular and more substantial debris in a large 5-liter canister. The general-purpose canister can also be used separately for standard use.

Full-Featured iAquaLink App Control

Easily schedule recurring cleaning cycles, view current pool water temperature, access additional cleaning modes and receive timely status information straight from the cleaner.

Heavy-Duty Track System

Enhanced track system designed to provide additional traction on all pool surfaces and extend motor life.

Patterned "H" Navigation

Thoroughly scans and measures pool, collecting pertinent information to deliver full-coverage cleaning.

Compass Sensor System

Smart navigator drives patterns and alleviates cable tangling for swift and hassle-free operation.

WiFi App Connectivity

Receive automatic performance updates over the air via WiFi connection and the iAquaLink Control App.

Vortex Vacuum Technology

Keeps debris suspended for long-lasting suction and exceptional cleaning performance.

Enhanced Motor Performance

Long-lasting motor performance to propel the cleaner up inclines and over obstacles for a tighter turn radius while delivering cleaning cycles up to six hours.

Proprietary Easy Lift Removal System

Retrieve at the waterline — water evacuates for lightweight removal.

Enhanced Scheduling

Easily schedule recurring cleaning cycles for up to six hours with advanced options via the iAquaLink Control App.

Temperature Display

Conveniently check the pool's temperature with the iAquaLink Pool Control App.

Delayed Start Timer

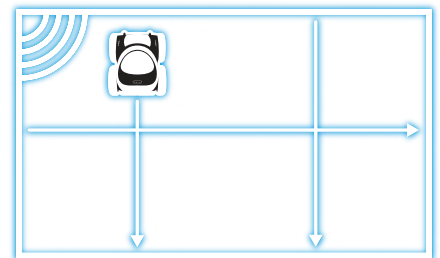

Save time and delay the start of cleaning cycles by up to twenty-four hours to allow sediments to drop to the bottom surface.

Remote Control with Targeted Spot Cleaning

In-app remote guides the cleaner while Spot Cleaning mode provides targeted cleaning for quick touchups.

Double Helix Brushes

Proprietary brush design agitates stuck-on dirt and channels debris towards large inlet for more effective cleaning.

Patterned "H" Navigation

POLARIS® VORTRAX™ 25iQ SPECIFICATIONS

Model & SKU #	VTRX 25iQ
Caddy for Transport and Storage	Included
Ultrasonic Sensors for Wall & Obstacle Detection	No
Compass for Smart Navigation and Cable Management	Yes
Filter Canister	Dual Filtration: Ultra Fine and General-Purpose Canisters
Control Box	Included
Types of Pools	Class B, small to medium commercial pools (HMCA)
Pool Shapes	Rectangular, Oval, Free Form
Floor Surface Type	Plaster, Tile, Liner
Cleaning Areas	Floor / Walls / Waterline
Pre-Set Cleaning Cycles / Length	30 min to 6 hours Quick Floor Only 1hr 15 min SMART Mode: Floor/Walls/Waterline Calc Time Deep Clean: Floor/Walls/Waterline up to 6 hours
Timer/Delay Start	Recurring schedules up to 6 hours with 24 hours Delay Start Time
Steering	Smart Navigation
Drive System	Traction System Drive - 2 motors
Depth Sensor	Yes
Brushes	Double Helix Brushes
Lift System	Yes, controlled by Control Box or from iAquaLink App
Dirty Canister Indicator	Yes
Remote Control	In-App with Targeted Spot Cleaning Action
Water Temperature Measurement	Yes w/ iAquaLink® Control App
Safety	Deck System, Out of Water Safety, Diagnostics
Filtration System / Access	Rigid Filter Canister w/ Top Access
Control Box Supply	120 VAC; 50 / 60 Hz
Power Supply	30 VDC
Operating Power	150 W
Cable Length	80 ft
Cleaner Size	17 x 12 x 19 in
Packaging Size	22 x 22 x 18 in
Cleaner Weight	26 lbs
Filtering Capacity	Extra-Large, 5L
Cleaning Path Width	10 in
Pool Size	Up to 80 ft
Filter Canister Access	Top
