AVIA™ + Raymote™

## 5 Select your Wi-Fi network and enter your password

Make sure to have a strong Wi-Fi signal near the heater.

6 The AVIA is connecting to your Wi-Fi

7 Name your heater to complete the setup and enjoy Raymote control

You can invite family members and service suppliers to your Raymote organization

Control your entire pool system with AVIA

Automates heat up time by learning pool size

Raymote mobile app – allows on-the-go control of your pool temperature and so much more

Having trouble connecting your AVIA?

Try these suggestions to improve your Wi-Fi signal:
- Confirm that your Wi-Fi signal strength is strong enough to reach the heater (walls and fences may affect Wi-Fi signal)
- Reduce distance between Wi-Fi router and the heater
- Add a Wi-Fi range extender
- Enable a new Wi-Fi access point
