

# INTELLIBRITE<sup>®</sup>

## COLOR-CHANGING LED LANDSCAPE LIGHTS

Showcase your landscape with captivating color and animated light shows.

IntelliBrite landscape lights are the way to add a variety of colored lighting effects to your backyard retreat. Whether you're ready to wind down for the evening or perk up for a party, IntelliBrite landscape lights will create the perfect atmosphere.

## INTELLIBRITE® COLOR-CHANGING LED LANDSCAPE LIGHTS

Dramatic lighting options available.

LED technology is the standard in energy efficiency, lifetime value and quality of light. And IntelliBrite light technology adds color and illumination, creating beauty and helping establish the added security you want around your home.

### SYSTEM KEY FEATURES

#### Synchronization

IntelliBrite landscape lights can be synchronized with IntelliBrite Underwater Pool and Spa Lights for coordinated or complementary lighting effects.

#### Two color effect modes

For a total of 10 rich, fixed colors and 14 mesmerizing, automated light shows to match your mood, the occasion or the season of the year.

#### Two brightness levels

To alter color intensity. Screw-off lens cap provides fast, easy access to mode and brightness switches.

#### Easy placement

For highlighting a tree, shrub, lawn sculpture or garden, as well as to illuminate drives, walks or decks and patios. Comes with mounting stake for secure attachment and easy installation.

#### Easy connection and adjustability

Connects to standard 12-volt transformer and has adjustable elbow joint for easy vertical adjustment.

#### Longer life

Provides significantly longer life than incandescent light bulbs.

#### Custom lens geometry and reflector design

Create highly uniform light and color distribution for best overall light quality and brilliance.

#### Durable, solid-state technology

No internal filament to wear out.

Appearance of color and white LED light may vary between various models of lights. Appearance and perception of pool lighting may vary depending on a number of factors including, but not limited to, the particular model of light, the location/depth/angle of the light's installation, pool finish/material, pool depth/shape/geometry, ambient light sources, subjective factors and more. For best results when using multiple lights, use all the same model and do not mix multiple models of lights within a single installation.
