## **Osmo Polyx-Oil finish**

OSMO Polyx-Oil is made from readily renewable, natural ingredients: 2 natural waxes (carnauba and candelilla) and 3 natural oils (sunflower, soybean, and thistle). It preserves the look and feel of real wood because it is not a plastic coating - instead it penetrates and strengthens the wood grain from within. It is a micro-porous, Hardwax Oil which performs very well in rooms with high humidity, such as kitchens. It has been developed for resistance to stains from wine, cola, coffee, tea, fruit juice and beer. We stand by our craftsmanship and recommend you adhere to these guidelines to get the most out of your piece. The character and patina of reclaimed lumber is quite unique and needs to be attended to more carefully than standard wood pieces.

### **General Daily Care**

- Vacuum or dust regularly.
- Clean using diluted OSMO Wash and Care and cotton t-shirt rag.
- Remove greasy or ground-in grime with OSMO Liquid Wax Cleaner.
- Contact with extreme temperatures is likely to cause damage and should be avoided.
- Sitting water and prolonged contact to moist/wet objects is likely to cause damage and should be avoided..

### **Refreshing**

- Apply a small amount of OSMO Liquid Wax Cleaner to a white abrasive pad. Rub this into the surface. Allow to dry for 30 to 60 minutes. Buff with a cotton cloth.

### **Repairing Superficial Scratches & Stains**

- Use white abrasive pad or fine steel wool to rub in a small amount of Liquid Wax Cleaner into the affected area. Wipe up any excess immediately with a cotton cloth. Buff with a soft cotton cloth or white pad when dry.

These instructions are specific to Osmo brand maintenance products which can be purchased online as well as at local retailers. Alternative cleaning products are used only at your own discretion after reading any and all information posted on the bottle or container. For any types of maintenance, care or cleaning beyond what is outlined we recommend you consult with a professional finish and repair service for further advice or assistance.
