

After School Satan Club Mission

After School Satan Clubs focus on free inquiry and rationalism, the scientific basis for which we know what we know about the world around us.

We prefer to give children an appreciation of the natural wonders surrounding them, not a fear of everlasting other-worldly horrors.

Educatin' With Satan

After School Satan Clubs meet at select public schools already hosting other religious clubs.

Trained educators provide activities and learning opportunities which students are free to engage in, or they may opt to explore other interests that may be aided by available resources.

While the classes are designed to promote intellectual and emotional development in accordance with TST's tenets, no proselytization or religious instruction takes place.

ASSC is an after school program promoting self-directed education by supporting the intellectual and creative interests of students.

Welcome to After School Satan Club!

We appreciate you taking the time to learn about our club and considering us for your child's after school activity! Check out our FAQ's and please feel free to ask an ASSC volunteer for any further clarifications or questions not addressed here.

What is the goal of ASSC?

It is our goal to provide a fun, intellectually stimulating, and non-proselytizing alternative to current religious after school clubs being offered in our public schools, which aim to indoctrinate children into their religious view.

We are not offering any materials or lectures to your child about Satanism; instead, our focus will be on free inquiry and rationalism, bolstering scientific understandings of the natural world, and nurturing your child's already awesome ability to be curious about the wonders around them.

Why Satan?

To call our club any alternative such as "science club" or "atheist club", which has been suggested by many, would be disingenuous and akin to hiding.

Satan, to us, is not a supernatural being. Instead, Satan is a literary figure that represents a metaphorical construct of rejecting tyranny over the human mind and spirit.

Who is teaching my child in this club?

Our club is operated by The Satanic Temple. Our volunteers have been vetted by The ASSC Campaign Director and TST Executive Ministry for professionalism, social responsibility, and superior communication skills.

All ASSC volunteers have passed a comprehensive criminal background check.

Can I join in the fun with my child?

Yes! You are more than welcome to join us for any or all of our club meetings. Everyone is welcome!

Can my child attend this class if they don't attend the school where ASSC is being held? How about if they're religious?

Absolutely! We are not a student-led club, and we do not operate under any specific school or school district, and because of that, any child ages 5-12, no matter what religious views are being taught at home, can attend our club with a signed permission slip from their parents.

All After School Satan Clubs are based upon a uniform syllabus that emphasizes a scientific, rationalist, non-superstitious world view.

We use games, art projects, community projects, guest speakers, and fun experiments to help children learn core concepts that will benefit their lives no matter what their deeply held religious beliefs are.
