Personal Health Protection Kit

Product codes	Size
ME906301M	Medium Kit
ME906301L	Large Kit
ME906301XL	X-Large Kit
ME906301XXL	XX-Large Kit

Medi9 Personal Health Protection Kits have been designed as infection control kits to protect anyone who is working in an area where there is a high risk of infection or contamination - for example, those handling patients that have contracted Ebola, swine flu, Norovirus and the like. They can also be used at crime scenes and as protection for front line personnel attending a disaster scenario. The kits are packaged compactly in a securely sealed bag and designed so that the contents, once used, can be contained in a clinical waste bag, cable-tied and sent away for disposal.

Features:

- *Coverall provides protection against airborne particles and fibres. Zip front with adhesive backed cover flap. Certified to EN13982-1, EN13034, EN14126, EN1073-2 & EN1149-5
- **Goggles are lightweight, extremely durable and, with an indirect vent, provide protection from liquid splashes as well as large dust particles. Certified to EN166:2001
- All items can be disposed of in clinical waste sack provided
- **Bespoke kits can be assembled to your requirements**

Nine Group
