New Products, Fall 2022

Fifth Avenue

Square Rosette & Short Plate

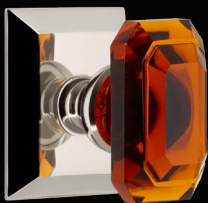

Fifth Avenue Square Rosette with Fifth Avenue Knob

Fifth Avenue Short Plate with Fifth Avenue Knob

Grandeur's Fifth Avenue collection—a perennial favorite year after year—expands with two new products: a square rosette and a short plate.

The Fifth Avenue Square Rosette is crisp and compact. It's a testament to the idea that "less is more."

Like its square rosette counterpart, the Fifth Avenue Short Plate pairs nicely with any Grandeur knob or lever. Both are available with matching deadbolts, to make a complete entry set.

Carré

Square Rosette & Brass Knob

With its stepped edges, Carré conveys the nuance of a slightly more formal look and feel. The Carré Square Rosette is available in all interior functions and can be ordered with matching deadbolts. This collection wouldn't be complete without new, matching, solid brass knobs.

Brilliant Crystal Knob

Fifth Avenue Square Rosette
with Brilliant Crystal Knob

The Brilliant Crystal Knob gets its name from the gem cut known as “brilliant,” which consists of myriad, polished facets in triangle and kite shapes, all radiating outward from the center face. As with a round brilliant cut gem, this crystal knob produces a glimmer of twinkling light when moved. Each polished facet registers visual and tactile perception, delivering a feast for the senses.

Black Baguette Crystal Knob

Like a reflection of the night sky off a still pool of water, the Black Baguette Knob reveals its facets. Smooth and glossy, with a silhouette inspired by emerald cut diamonds, the Black Baguette brings an elegant mystique to any room.

Carré Square Rosette with Carré Lever in Satin Nickel, Antique Pewter and Vintage Brass

Carré Lever

The solid brass Carré Lever incorporated into the mix will look undeniably stately for those who prefer levers. This lever has bold looks and a pleasing tactile grip featuring the familiar stepped edges that make the Carré style so distinctive.

Soleil

Lever

Soleil Rosette with
Soleil Lever in new Satin Brass Finish

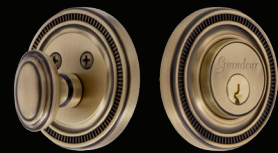

Grandeur extends the Soleil Collection to now include a matching Soleil Lever. This lever exudes an architectural feel, having a distinctive fluted shaft with rings on either end, reminiscent of Greek or Roman columns. The look is even more striking when paired with the Soleil Rosette, which has a corona of lines that mimic the rays of the sun.

Premium Features

■ Concealed Screw Mechanism

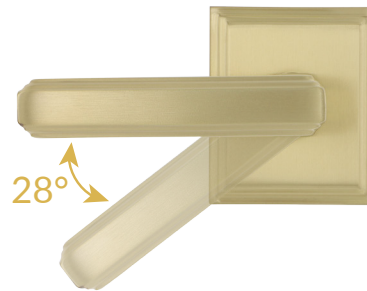

Grandeur's Concealed Screw Mechanism (CSM) is a design feature that cleverly hides the screws that attach rosettes and short plates to the door, resulting in a clean look unmarred by visible fasteners. This premium feature sets the bar higher for the industry.

■ 28-Degree Latch

Standard Latch Operation

Grandeur CSM Latch Operation

As an added benefit, all CSM sets with levers also include a 28-degree latch, which requires less motion to unlatch. This small-yet-significant detail makes Grandeur Hardware lever sets a smart choice for multigenerational households where they will be used by people of varying ages and abilities. A specialized spring-loaded subplate prevents heavy levers from sagging and offers more reliable performance. CSM sets are easy to install and add a subtle yet distinctive touch to any décor.
