Ways To Order

You can order on our website; Vorsteiner.com.

Our website allows you to customize your wheel by selecting your application, finish and center cap.

You can also speak with our sales representative and they can help guide you to a purchase.

FAQ

What Is The VMP Program?

It's the Vorsteiner Bespoke Series. Build your own 3-piece wheel. Pick from brushed, polished, or solid textures. Add your choice of finish to the outer barrel and face of your wheels.

How Are Your VMP Wheels Engineered And Tested?

We engineer lab test and FEA all of our wheels to maximize performance while minimizing weight specific to target vehicle application without using a universal load rating.

How Long Will It Take To Get My Order?

The estimated time for the VMP wheel program is as soon as 3-8 weeks!

This only applies for wheels that are labeled as "Available Now!"

Otherwise, estimated time for wheels that are NOT labeled as "Available Now" will take up to 10 weeks.

Where Are The VMP Wheels Made?

Our VMP Wheels are made in-house at our facility in Huntington Beach, California USA!

Our Dymag Carbon Fiber Barrels are sourced from their facility in the United Kingdom.

What Materials Are The VMP Wheels Made With?

All of our multi-piece forged wheels utilize California sourced T6-6061 aerospace & medical grade aluminum that is TUV rated for safety.

What Hardware Is Included?

All VMP wheels come standard with titanium hardware.

Can You Purchase With Payments?

Pay how you want: You can now make 0% interest payments with no impact to your credit. Make payments on your VMP wheels when purchasing on our website: Vorsteiner.com.

My Car Is Not On The Applications List, Can I Still Order?

We have a pre-set list of vehicles we carefully chose to use as our applications list.

Contact one of our sales representatives and they may assist you to find out if our wheels can fit your vehicle.
