CABERNET MERLOT

2022 MARGARET RIVER

Marri Wood Park is a boutique family run and owned, Demeter certified biodynamic vineyard. Established 1992 in Yallingup, Western Australia, located on Caves Road, a stone throw from Smiths Beach.

Our biodynamic philosophy utilises sustainable, chemical free practices. Applying the timing and movement of celestial objects to predicate pruning, live animal fertilising, and picking; complementing our natural and introduced bio-diversity as an ecologically beneficial approach to farming.

Tasting Notes

An elegant offering for the first biodynamic Cabernet Merlot blend from the Marri Wood Park stable. This classic Margaret River blend is a luminous deep-hued garnet in the glass, with pretty blackberry, plum and some cedar wood notes on the nose. On the palate, an initial flash of more of the sweet herbal and cedar notes leads to mouth-pleasing dark fruit flavours of bramble, blueberry and blackberry. Velvety tannins are beautifully balanced by juicy acid, wrapped up in a delightfully lingering finish.

Winemaking

For the first time at Marri Wood Park this fruit was harvested from our neighbours vines at Windance Estate. Also a Demeter certified biodynamically farmed vineyard, located in Yallingup.

Viticulture Notes

The vintage quality was outstanding, the fruit was ripe and delicious. The wine was hand picked from our neighbours vineyard. Fermented for 16 days before being transferred into a combination of new and matured oak barrels. Overall, it was a large yield for the vineyard and the quality was exceptional.
