Patterned fabrics may require larger quantities, please discuss prior to ordering

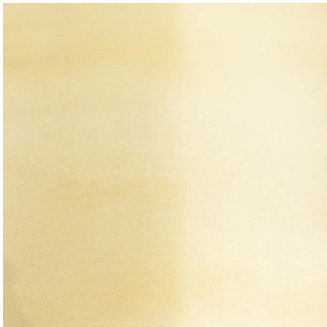

AND OBJECTS

Aged Brass

Brass Bronze

Polished Brass

Leather Care

All hides are unique and will have natural imperfections that add character but will need some care and attention to prolong their life. Regular cleaning with a lint free cloth accompanied by a gentle application of Marseille Soap a few times a year will keep the leather clean and grease free. We also recommend applying a good quality leather conditioner twice a year to prevent drying and cracking.

Metalwork Care

All metalwork will go through a process of oxidisation over time, this can enhance the product and add character. If you would like to return to the original finish then gently polish with a non-abrasive cloth.

Customisation ?

- Custom seat height - Yes
- Custom arms - No
