COLOR PALETTES

*Classic Mosaic Shapes &
Specialty Mosaic Designs*

SPECIALTY DESIGNS COLOR PALETTE

Over thirty colors are available to customize the Devotion patterns. Each color has its own individual characteristics that include color movement, texture, mirror and iridescent finishes. No two sheets are the same, variation will occur within each color from sheet to sheet. (See chart below for details)

					
Bright White V0	Cumulus V0	Gosh White V1	Ivory V4	*Spirit V2	Sand V4
					
Sugarcane V2	Clay V4	Enigma V3	Blush V3	Light-Medium Beige V4	Fire Red V2
					
Enchanted V3	Haute V4	Grey Blue V4	Celestine V4	Light Smoke V4	Rain Cloud V2
					
Colonial Blue V4	Blue Cloud V3	Persian Blue V4	Cyan V3	South Beach V4	Ocean Breeze V4
					
Jade V3	Emerald V3	Black V1	Chrome V2	Cinder V2	Sterling V2
			<p>VARIATION RANGES ON A SCALE OF 0-4: V0: Very Uniform Appearance — Pieces of the same shade value are very uniform and smooth in texture. V1: Uniform Appearance — Differences among pieces from the same production run are minimal. V2: Slight Variation — Clearly distinguishable differences in texture within similar colors. V3: Moderate Variation — The amount of color and/or texture on each piece may vary significantly. V4: Substantial Variation — Random color and/or texture from tile to tile. Thus, the final illustration will be unique.</p>		
*Heirloom V3	*Lustre V3	*Gilt V3			

**Spirit, Heirloom, Lustre and Gilt are only available in select pre-determined blends.*

Mounted Tile
Unmounted Tile

Light Residential	Residential flooring areas subject to soft-soled footwear or normal footwear traffic without heavy dirt. Some examples would be: interior rooms such as bathrooms and bedrooms without exterior access.
Residential	Residential flooring areas that are subject to soft-soled footwear or normal footwear traffic with small amounts of abrasive soil. Some examples would be: living or dining rooms.
Heavy Residential	Residential flooring areas that are subject to normal footwear traffic with occasional amounts of abrasive soil. Some examples would be: halls, kitchens and corridors.
Light Commercial	Non-industrial, commercial flooring areas that are subject to normal footwear traffic (less than 50 people per hour) with occasional amounts of abrasive soil. Some examples would be: boutique showrooms and corporate office spaces.

¹Artisan Edge tile is manufactured with an artisan edge; each tile will vary in shape and size and may exhibit some slight edge chipping. It is recommended that the purchaser review an installed and grouted sample board, prior to purchase, to determine the tile's suitability for the intended application.

² Tiles with any edge longer than 5" or trim tile with any edge longer than 2.5" are not recommended for shower floors or submerged applications.

³ The following Art Glass colors are NOT recommended for exterior applications: Lustre, Heirloom, Astral, Nocturne, Mercury, Ruby, Gilt and Helios.

⁴ In general, Oceanside Glass & Tile only recommends opaque tile in steam showers. However, in some instances, translucent tile may be used when installed with specific installation materials. For additional information, contact Oceanside Glass & Tile Installation Support at techsupport@glasstile.com or 877-648-8222.

FIREPLACES: We recommend ALL Oceanside Glass & Tile products for use on fireplace surrounds (wall tile) and/or hearth (floor tile only) applications. Oceanside Glass & Tile products are NOT recommended for use inside fireboxes.

SALT WATER POOLS: All Oceanside Glass & Tile products recommended for use in pools (see chart above) are not adversely affected by exposure to salt water and are recommended for use in both fresh water and salt water pools.

TEST RESULTS

Dynamic Coefficient of Friction Statement

Tiles with Dynamic Coefficient of Friction (DCOF) values less than .42 are not recommended for use on level, interior spaces expected to be walked upon when wet. If such tiles are used as a walking surface where water, ice, oil, grease and/or other substances are present, such a condition could cause a reduction in foot traction and become unexpectedly slippery, resulting in a fall and personal injury. However, this criteria does not apply to shower floors. The suitability of a tile for use on shower floors will be impacted by the format size of the tile, the size and frequency of the grout joints, a lack of footwear during showering and the expectation that the walking surface is wet. Due to the increase in drainage and reduction in the potential to hydroplane provided by a higher number of grout joints and an increase in traction of a bare foot, tiles that are 2" x 2" or smaller, that test below .42 DCOF, may be suitable for use on shower floors. Contact Oceanside Glass & Tile Installation Support for specific tile usage recommendations. See ANSI A326.3 American National Standard Test Method For Measuring Dynamic Coefficient of Friction of Hard Surface Flooring Materials, available at www.tcnatile.com, for additional information.

* Test is only performed on glass tile and does not include test results for glass tile with any one side which is less than 1".

For questions regarding the recommended use and/or installation of Oceanside Glass & Tile products, visit our website glasstile.com/technical-support or contact Installation Support at techsupport@glasstile.com • (877) 648-8222.

MINIMUM ORDER QUANTITY

All In-Stock items are sold in full boxes. See the chart below for an overview of our program and please note that you can only order in increments of one box. *Half boxes or individual pieces are not available for purchase.*

Tile Type	Pattern Names & Shapes	MOQ/ Order Increment
Paper-Faced Tile 	Classic: Squares, Rectangles, Linear Designs, Hexagon Specialty: Kaleidoscope, Pave, Fez	 1 box = 10 sheets
Film-Faced Tile 	Classic Shapes: All Shapes in Las Playas & Las Islas Mixes 2"x6", Echo, Random Linear, Zest Specialty: All Dimensional Designs, Cathedral, Jali, Estrella, Papyrus, Pompeii, Sirena, Scallop, Lotus, & Kesh	 1 box = 5 sheets
Field Tile 	2.5"x10" and 5"x10"	 1 box = 18 pieces

BLEND CHART

FOR CAST GLASS MOSAICS

The following chart contains the details of each of our color blends found in our In-Stock product offering.

**All blend names with an asterisk indicate even percentages of color components*

Blend Name	Page	Color Components
*Crystalline	11	Oxygen Irid Satin Nalu Irid
*Opaline	11	Pearl Clear Irid Pacific Irid
