# MAKE IT YOUR OWN ARTISAN CAST GLASS

Our entire cast glass color palette is available in our clean edge 1x1 and 1x2 mosaics *in bulk*, ready to be sheeted. Our 1x1 mosaics come in all four finishes and two layouts while our 1x2 mosaics come in three different finishes and three different layouts.

## **What does “in bulk” mean?**

When we say available “in bulk” we mean that we have produced and stocked each color we make, storing them loosely in bins awaiting to be sheeted according to what customers request. This differs from our In-Stock collection because our In-Stock inventory is already sheeted, boxed and ready to ship to your door. Take a look at the next few pages to explore all the colors we have to offer, the possibilities are endless!

# INTERIOR SPACES

*Make it Your Own • Luxury Art Glass*

# MAKE IT YOUR OWN LUXURY ART GLASS

We are excited to introduce Luxury Art Glass into the Make it Your Own program! Choose from three different layouts of our 1/2x2 mosaics in 15 colors to make your own blend. Each color has its own individual characteristics that may include color movement, texture and iridescent finishes. No two sheets are the same, variation will occur within each color from piece to piece. These mosaics are available in bulk and will be sheeted upon order just like our Artisan Cast Glass Make it Your Own.

1/2x2

**Straight Set**

**Offset**

**Double Herringbone**

*Shown in Colonial Blue*

VARIATION RANGES ON A SCALE OF 0-4:

V0: Very Uniform Appearance — Pieces of the same shade value are very uniform and smooth in texture.

V1: Uniform Appearance — Differences among pieces from the same production run are minimal.

V2: Slight Variation — Clearly distinguishable differences in texture within similar colors.

V3: Moderate Variation — The amount of color and/or texture on each piece may vary significantly.

V4: Substantial Variation — Random color and/or texture from tile to tile. Thus, the final illustration will be unique.

A photograph of an interior space. The background is a wall covered in a patterned glass with a repeating geometric motif of interlocking circles and arches. The glass has a textured, metallic gold finish. In the foreground, a dark leather chair is partially visible on the right. To the left of the chair is a dark wood side table with a white ceramic vase on top. The vase has a gold-colored base. The overall lighting is warm and dramatic.

# INTERIOR SPACES

*In-Stock Luxury Art Glass*

# IN-STOCK INTERIOR SPACES

Like our Outdoor Living In-Stock Collection, our Interior Spaces In-Stock collection also features sheeted, boxed ready-to-ship products. It showcases a variety of colors in waterjet and hand-cut patterns as well as hand-cut field tile specially made to take the inside of your home to the next level.

Textura	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	

<b>Light Residential</b>	Residential flooring areas subject to soft-soled footwear or normal footwear traffic without heavy dirt. Some examples would be: interior rooms such as bathrooms and bedrooms without exterior access.
<b>Residential</b>	Residential flooring areas that are subject to soft-soled footwear or normal footwear traffic with small amounts of abrasive soil. Some examples would be: living or dining rooms.
<b>Heavy Residential</b>	Residential flooring areas that are subject to normal footwear traffic with occasional amounts of abrasive soil. Some examples would be: halls, kitchens and corridors.
<b>Light Commercial</b>	Non-industrial, commercial flooring areas that are subject to normal footwear traffic (less than 50 people per hour) with occasional amounts of abrasive soil. Some examples would be: boutique showrooms and corporate office spaces.

<sup>1</sup> The following Art Glass colors are NOT recommended for exterior applications: Lustre, Heirloom, Astral, Nocturne, Mercury, Ruby, Gilt and Helios.

<sup>2</sup> In general, Oceanside Glass & Tile only recommends opaque tile in steam showers. However, in some instances, translucent tile may be used when installed with specific installation materials. For additional information, contact Oceanside Glass & Tile Installation Support at techsupport@glasstile.com or 877-648-8222.

**FIREPLACES:** We recommend ALL Oceanside Glass & Tile products for use on fireplace surrounds (wall tile) and/or hearth (floor tile only) applications. Oceanside Glass & Tile products are NOT recommended for use inside fireboxes.

**SALT WATER POOLS:** All Oceanside Glass & Tile products recommended for use in pools (see chart above) are not adversely affected by exposure to salt water and are recommended for use in both fresh water and salt water pools.

**SIZE LIMITATIONS:** Tiles with any edge longer than 5" or trim tile with any edge longer than 2.5" are not recommended for use on shower floors or in pool or water feature applications.

## TEST RESULTS

### Dynamic Coefficient of Friction Statement

Tiles with Dynamic Coefficient of Friction (DCOF) values less than .42 are not recommended for use on level, interior spaces expected to be walked upon when wet. If such tiles are used as a walking surface where water, ice, oil, grease and/or other substances are present, such a condition could cause a reduction in foot traction and become unexpectedly slippery, resulting in a fall and personal injury. However, this criteria does not apply to shower floors. The suitability of a tile for use on shower floors will be impacted by the format size of the tile, the size and frequency of the grout joints, a lack of footwear during showering and the expectation that the walking surface is wet. Due to the increase in drainage and reduction in the potential to hydroplane provided by a higher number of grout joints and an increase in traction of a bare foot, tiles that are 2" x 2" or smaller, that test below .42 DCOF, may be suitable for use on shower floors. Contact Oceanside Glass & Tile Installation Support for specific tile usage recommendations. See ANSI A326.3 American National Standard Test Method For Measuring Dynamic Coefficient of Friction of Hard Surface Flooring Materials, available at [www.tcnatile.com](http://www.tcnatile.com), for additional information.

TEST RESULTS									
TEST	ANSI A326.3	C648	A137.2-7.8	ISO 10545-4		C424	C650	C373	C1026
Collections	Dyanmic Coefficient of Friction	Breaking Strength*	Compressive Strength**	Breaking Strength	Modulus of Rupture	Cracking Resistance	Chemical Resistance	Water Absorbtion	Freeze-Thaw Resistance
<b>CAST GLASS (Muse, Las Playas, Las Islas, Zoetic)</b>									
Irid	<.42	≥ 350 lbf	≥ 2500 psi	N/A	N/A	No Effect 1 cycle @ 150 psi	No Effect	<.5%, Impervious	Pass
Non-Irid	<.42								
Matte	>.42								
Textura	>.42								

\*For tile measuring greater than or equal to 1" x 1".

\*\*For tile measuring smaller than 1" x 1".

1x2 in Montego

## MINIMUM ORDER QUANTITY

**All In-Stock items are sold in full boxes.** See the chart below for an overview of our program and please note that you can only order in increments of one box. *Half boxes or individual pieces are not available for purchase.*

Tile Type	Pattern Names & Shapes	MOQ/ Order Increment
Paper-Faced Tile 	Make it Your Own Artisan Cast Glass 1x1 & 1x2	 1 box = 10 sheets
Film-Faced Artisan Cast Glass 	ALL Best Sellers, Hexagon, Subway, Prelude A, B, & C	 1 box = 10 sheets
Film-Faced Luxury Art Glass 	1/2x2, Waterjet Cut Patterns, Hand-Cut Patterns	 1 box = 5 sheets
Field Tile 	Hand-Cut Field Tile in 3x12 & 6x12	 3x12 box = 50 pcs or 12.5 sqft 6x12 box = 40 pcs or 20 sqft
