

VIAGGIO[®]

VIAGGIO[®]

Take a journey into modern design

The Italian word Viaggio translated to English means voyage...travel... journey. Whether your journey is measured in miles or footsteps, it inevitably begins and ends at the doorways of the home. Our intent is to create a journey evocative of wonder and beauty, which, at its essence, is the reason we created Viaggio Hardware.

Inspired by the fashion trends of Milan and the modern design legacy of northern Italy, Viaggio products have distinct styles derived from an architectural sensibility. The result is an exceptional line of contemporary statement pieces of undeniable quality. Five trend-setting finishes can be used individually or paired to create high-contrast or subtle combinations.

Bright Chrome

Satin Black

Satin Brass

Satin Nickel

Titanium Gray

Motivo – thoroughly modern, with a tactile twist.

Our Motivo collection introduces unique texture for rosettes, deadbolt trim, and lever grips. When paired with a smooth knob or lever, the juxtaposition creates visual drama and appeal. Available for both Circolo and Quadrato rosettes.
